

P-ANULAR — raw readings per well and source · min -76.58 bar · max 434.9 bar

histogram of the readings inside the plausible band [0, 1000] bar, each row scaled to its tallest bin · title: smallest and largest of all readings, inside the band or not
under each histogram: thick line 25th–75th percentile · thin line 1st–99th percentile · tick median · diamond mean
right margin: instances, readings, share exactly 0 (frozen sensor — kept by the default masking), share outside the band (what the default masking removes), share missing

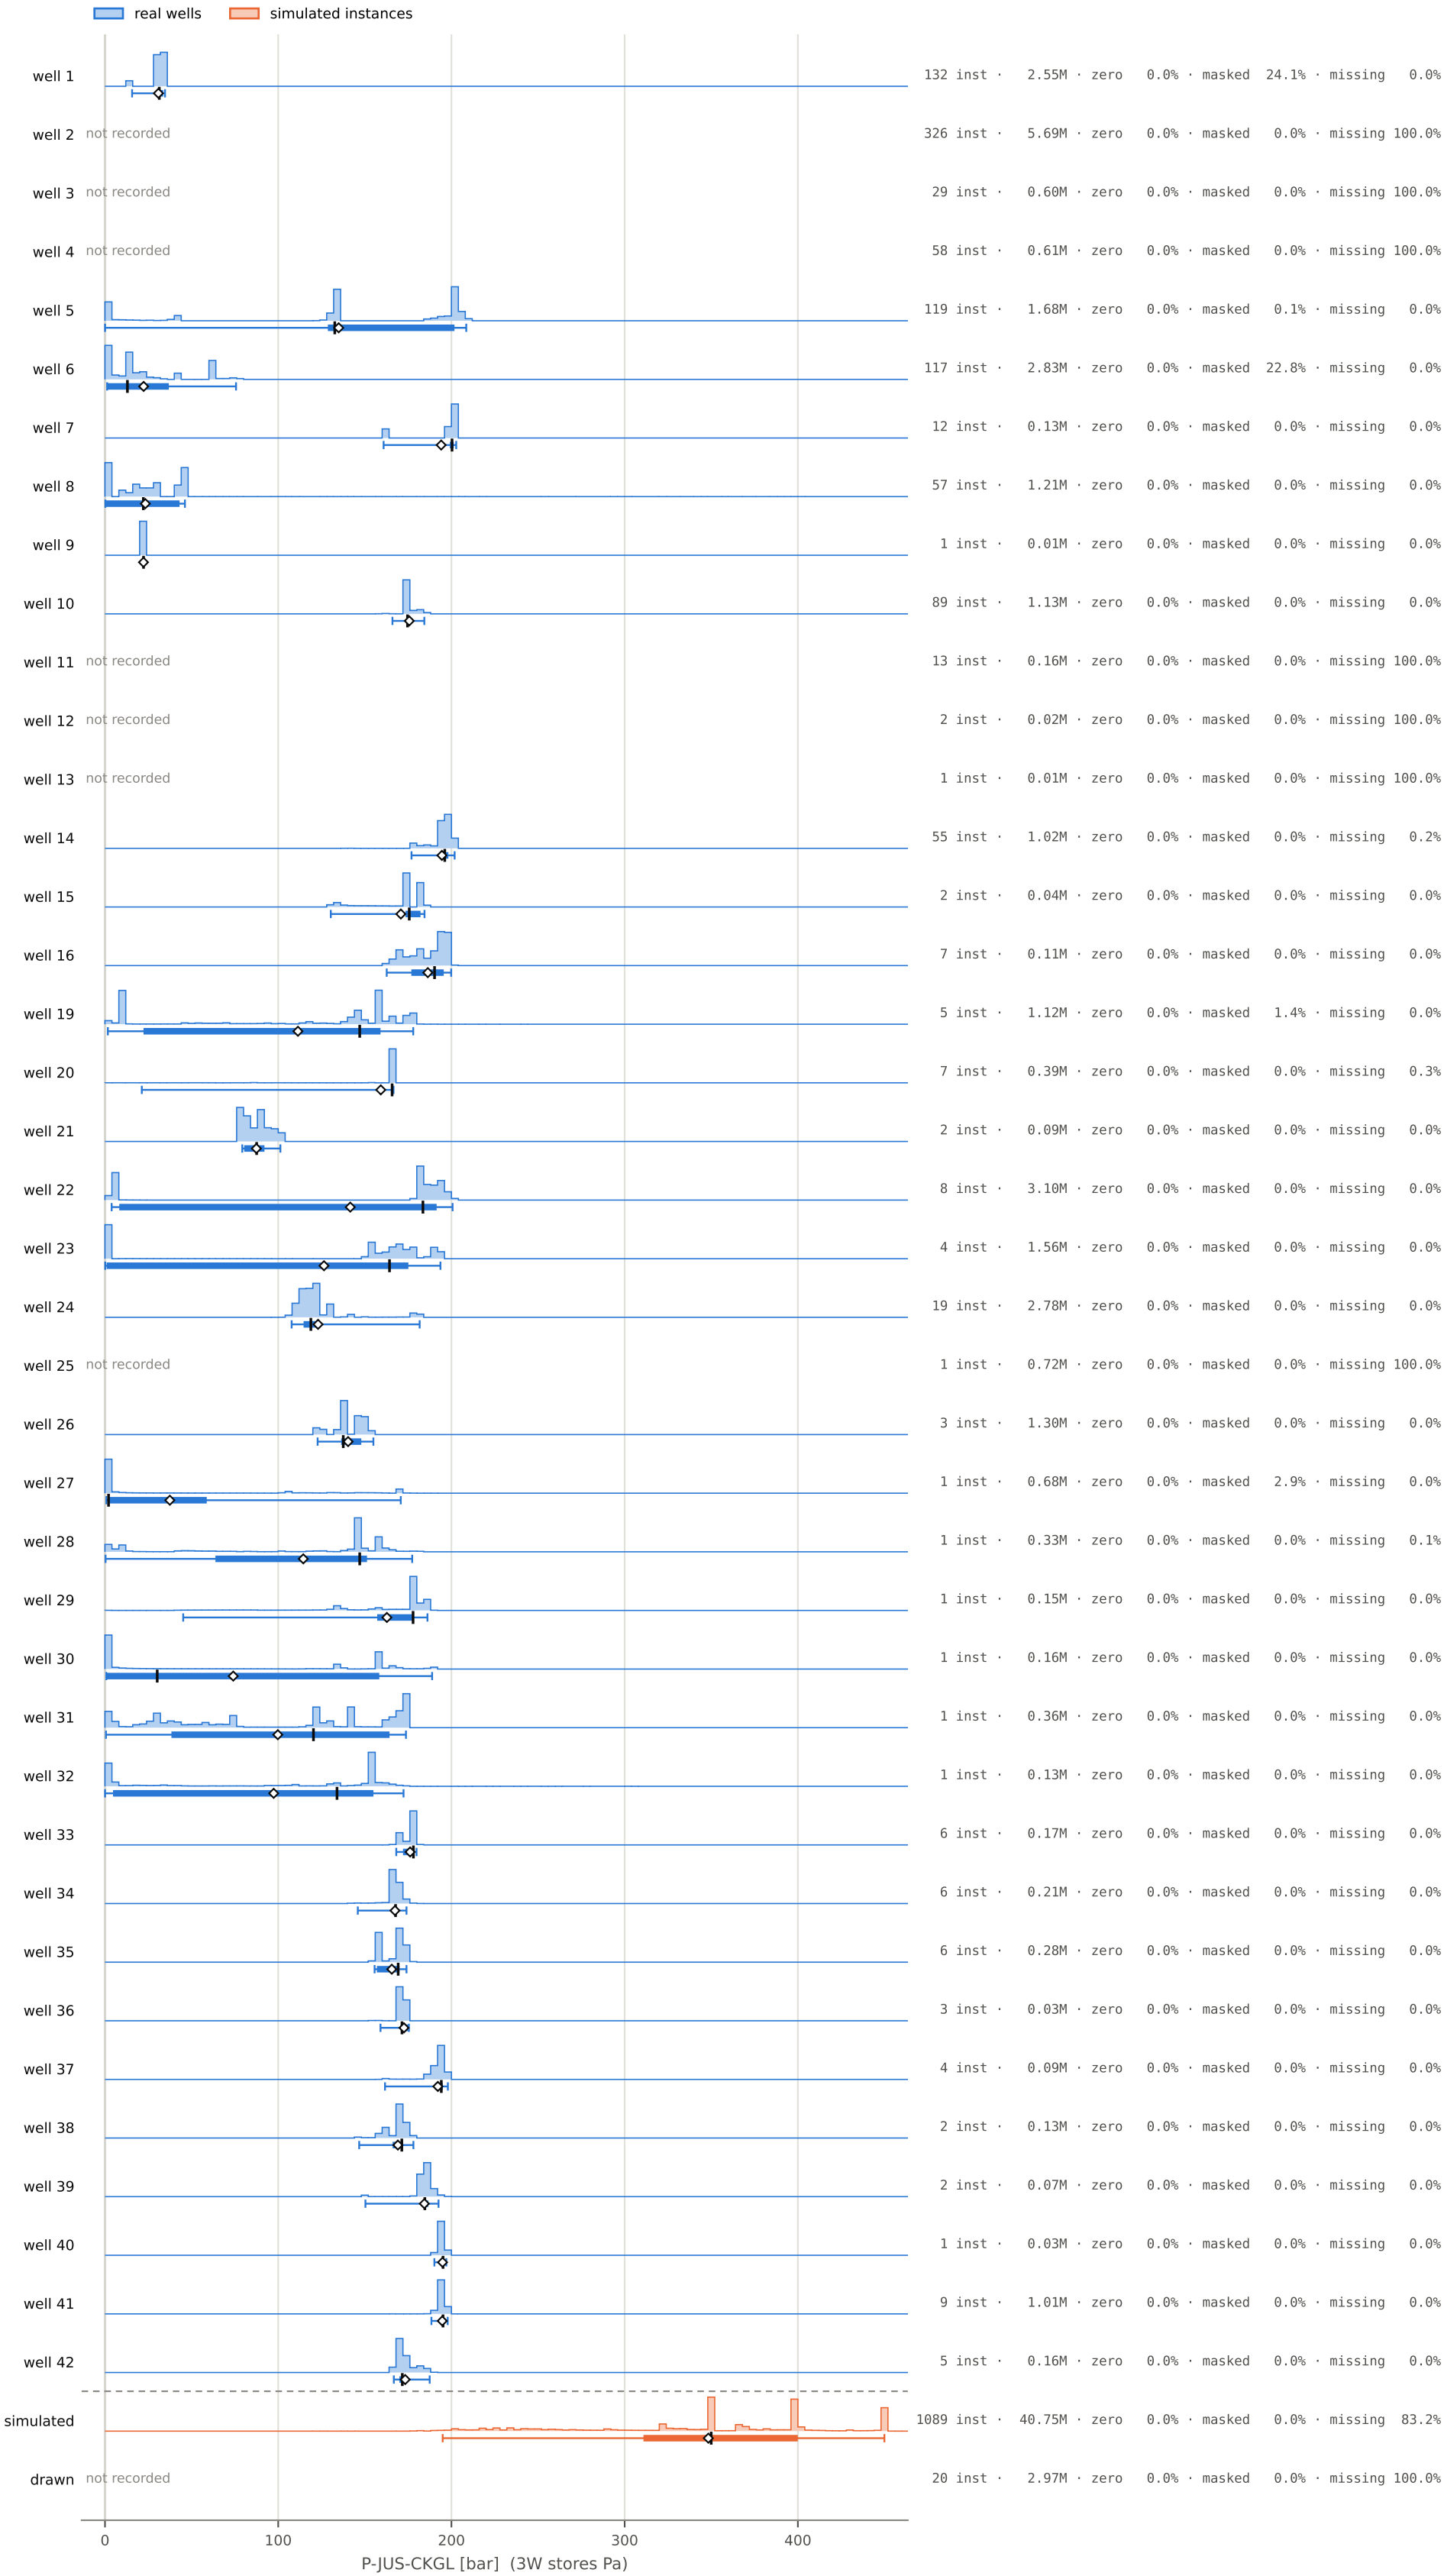

P-JUS-BS — raw readings per well and source · no reading

histogram of the readings inside the plausible band [0, 1000] bar, each row scaled to its tallest bin · title: smallest and largest of all readings, inside the band or not
under each histogram: thick line 25th–75th percentile · thin line 1st–99th percentile · tick median · diamond mean
right margin: instances, readings, share exactly 0 (frozen sensor — kept by the default masking), share outside the band (what the default masking removes), share missing

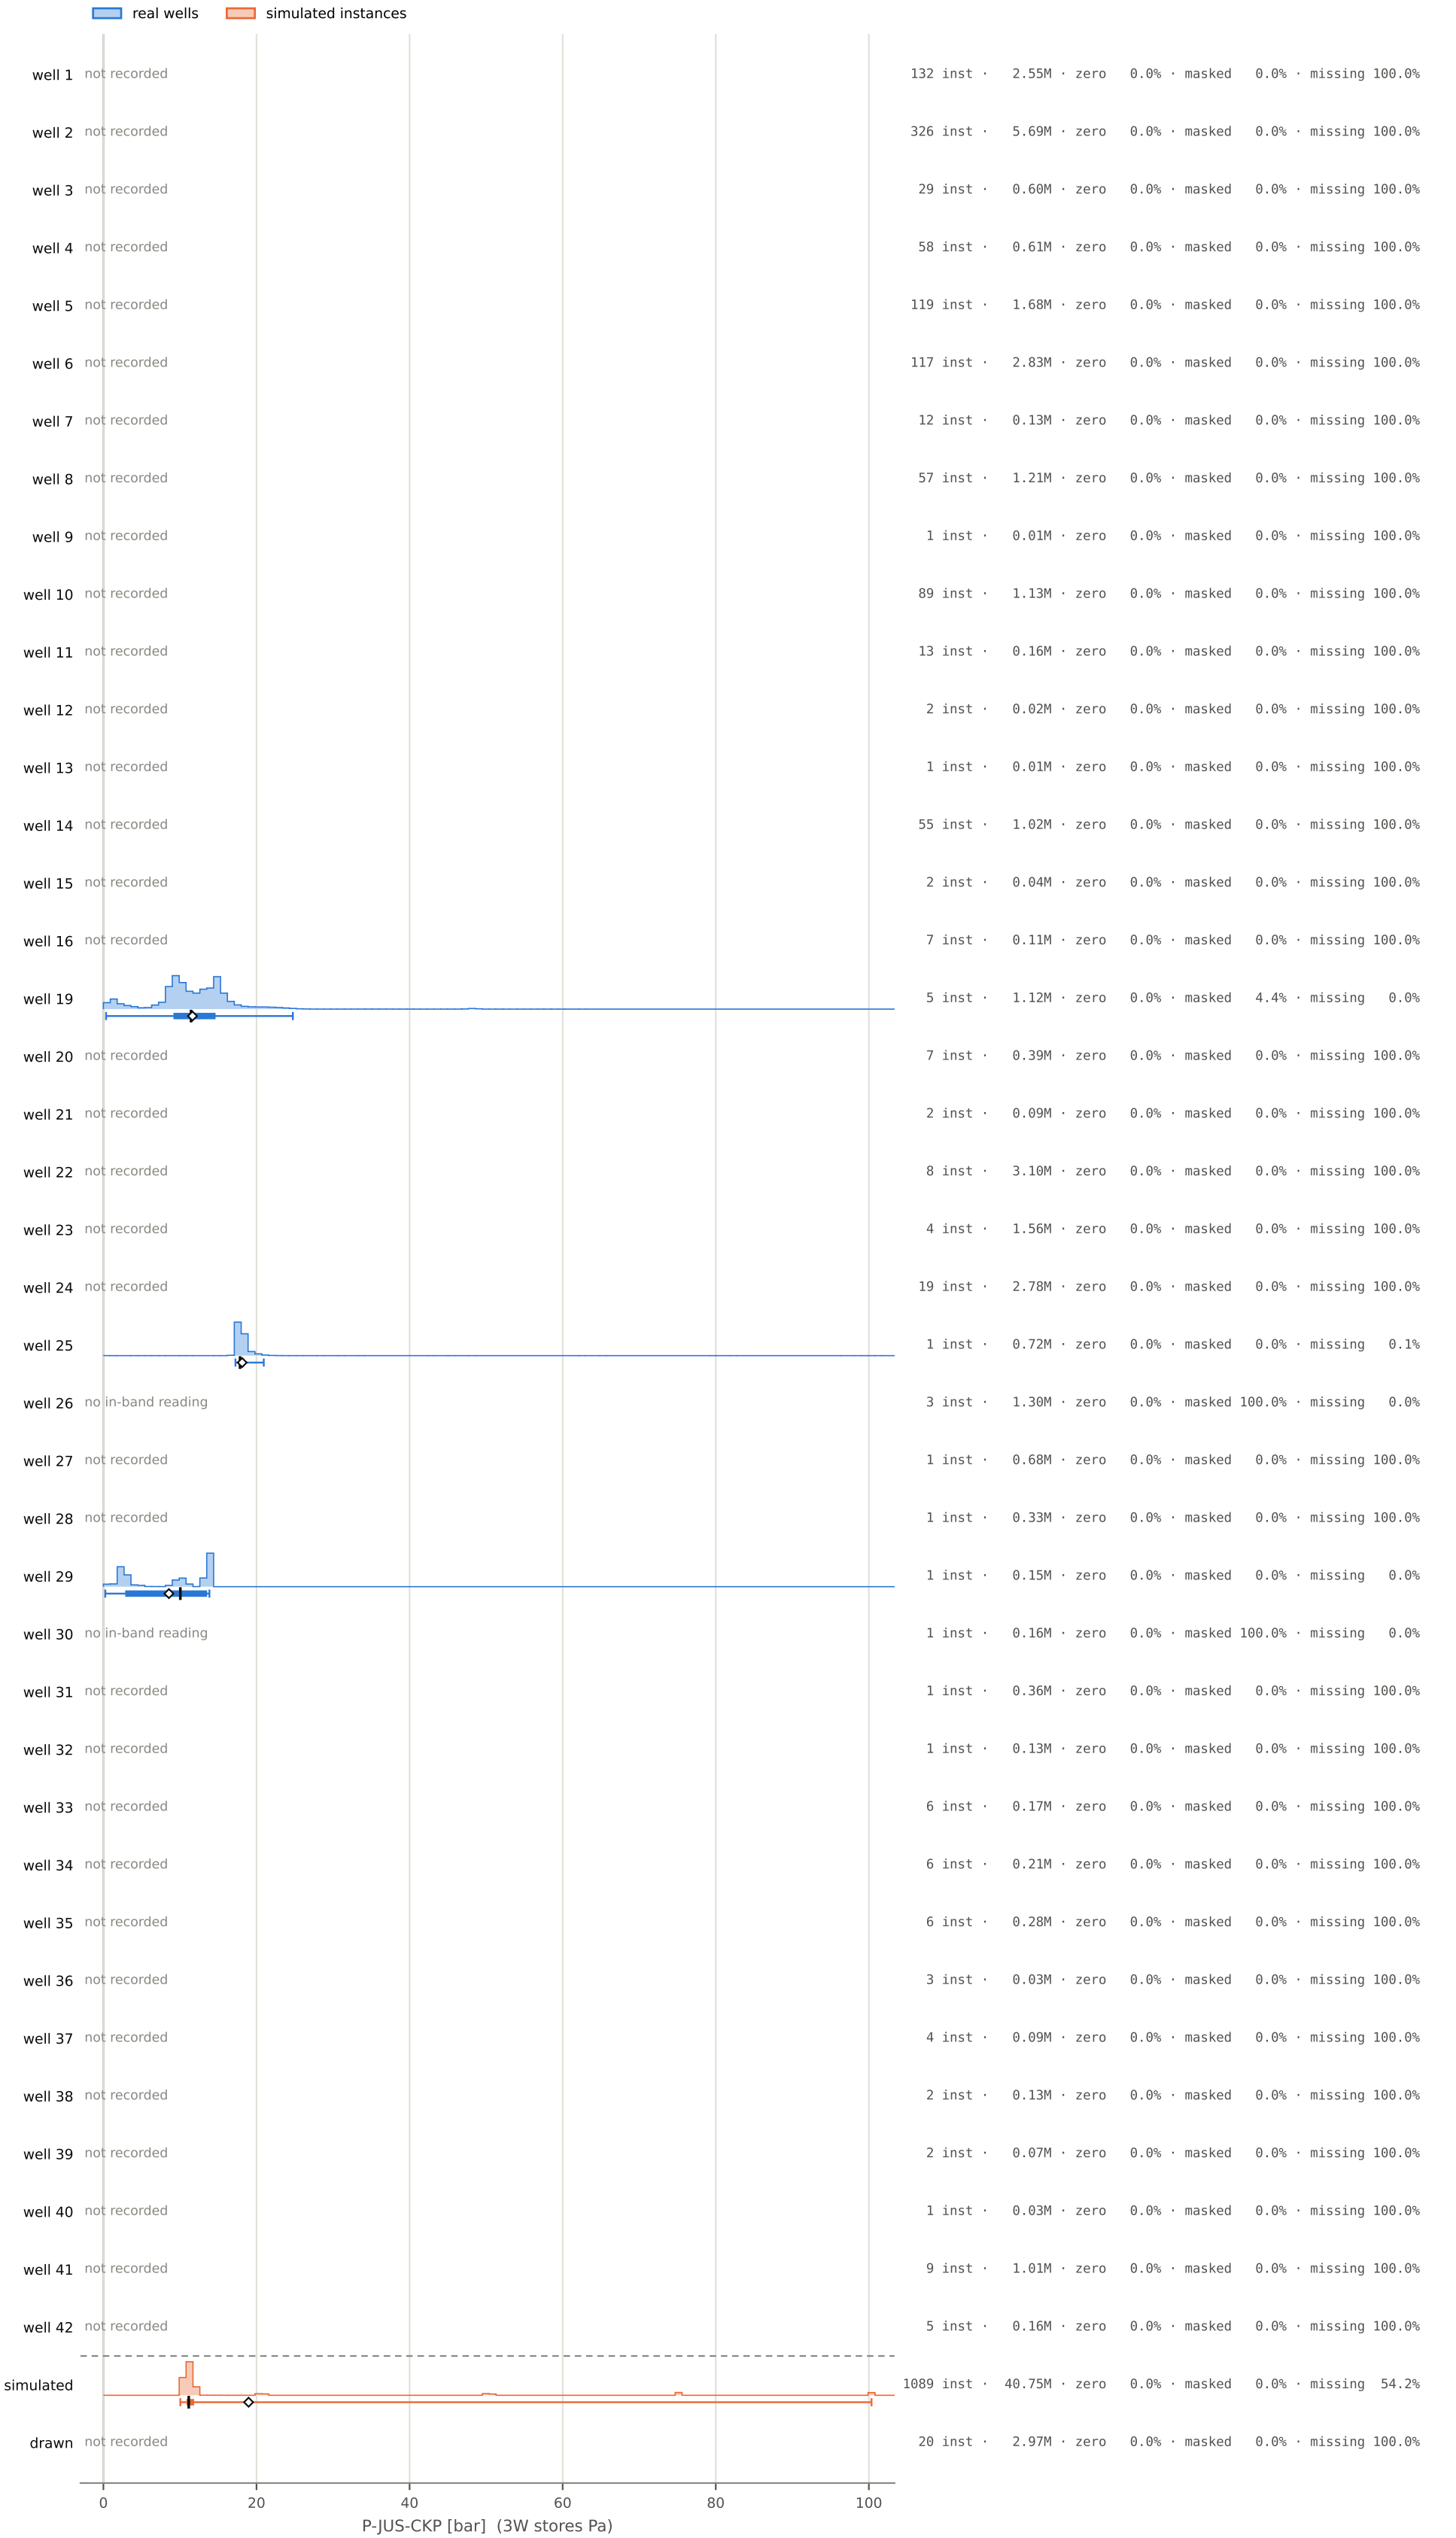

P-JUS-CKGL — raw readings per well and source · min -4.977 bar · max 1.052e+05 bar

histogram of the readings inside the plausible band [0, 1000] bar, each row scaled to its tallest bin · title: smallest and largest of all readings, inside the band or not
under each histogram: thick line 25th–75th percentile · thin line 1st–99th percentile · tick median · diamond mean
right margin: instances, readings, share exactly 0 (frozen sensor — kept by the default masking), share outside the band (what the default masking removes), share missing

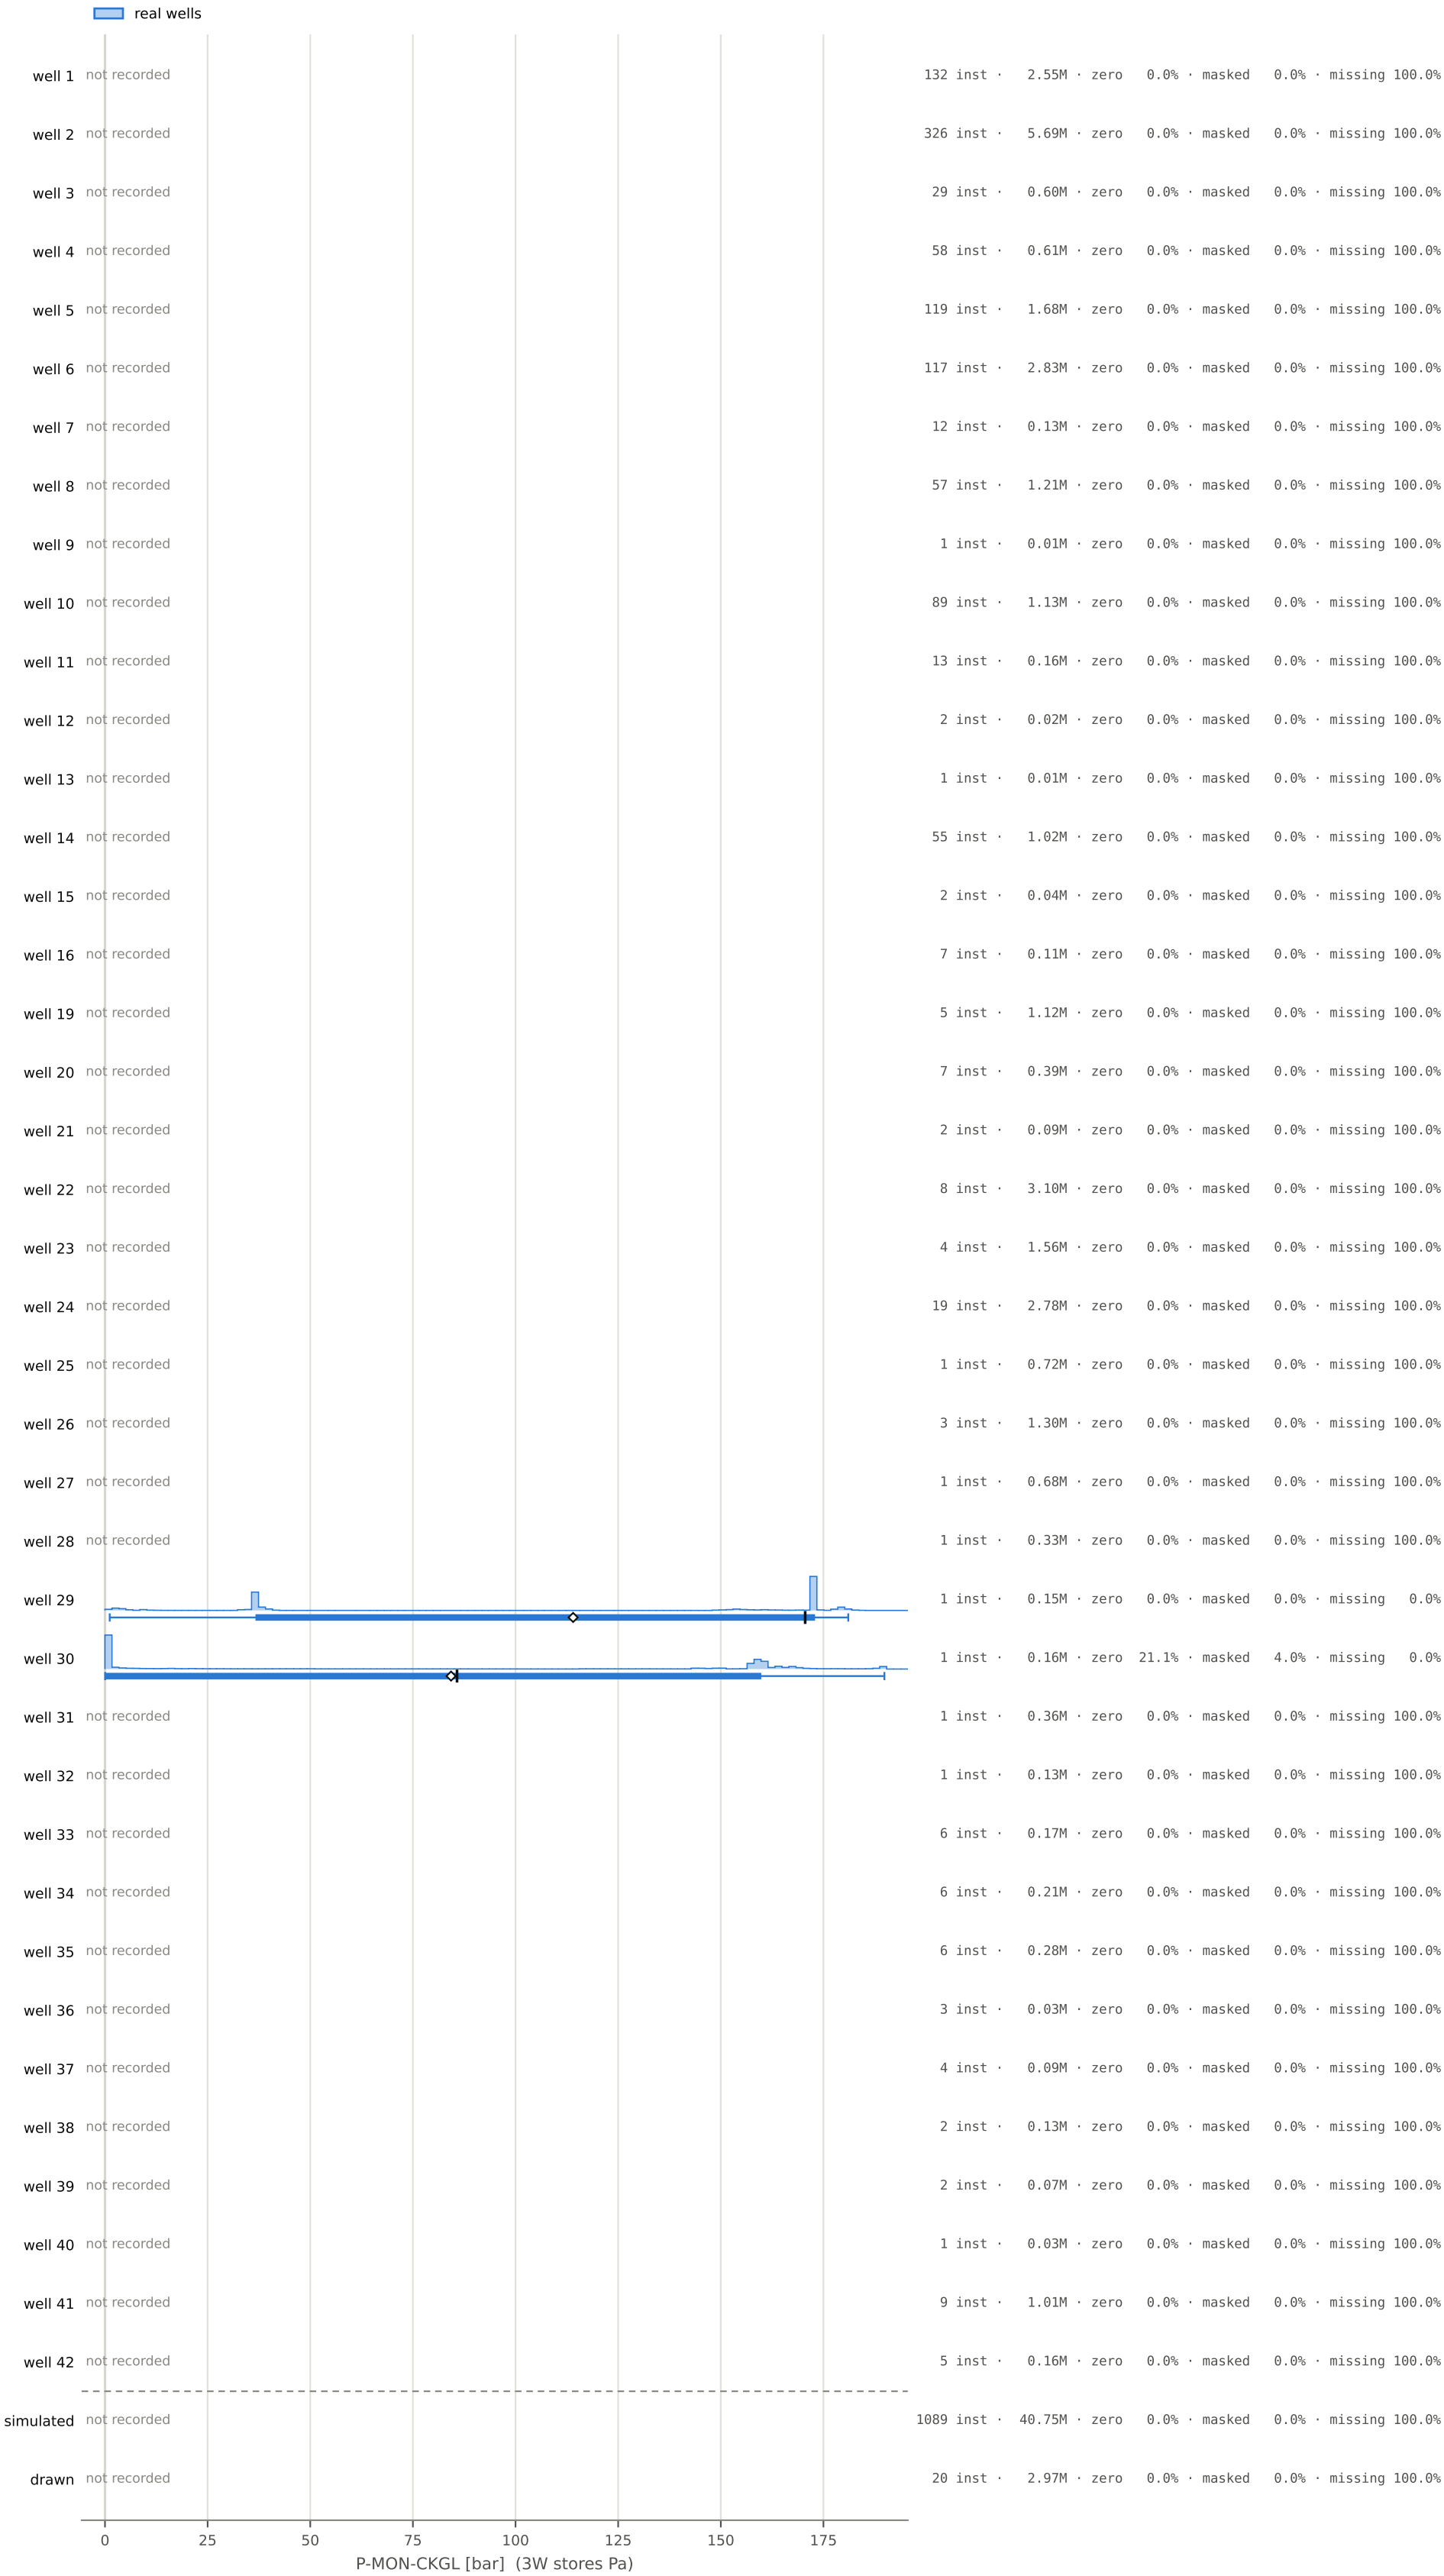

P-JUS-CKP — raw readings per well and source · min -99.99 bar · max 1.559e+04 bar

histogram of the readings inside the plausible band [0, 1000] bar, each row scaled to its tallest bin · title: smallest and largest of all readings, inside the band or not
under each histogram: thick line 25th–75th percentile · thin line 1st–99th percentile · tick median · diamond mean
right margin: instances, readings, share exactly 0 (frozen sensor — kept by the default masking), share outside the band (what the default masking removes), share missing

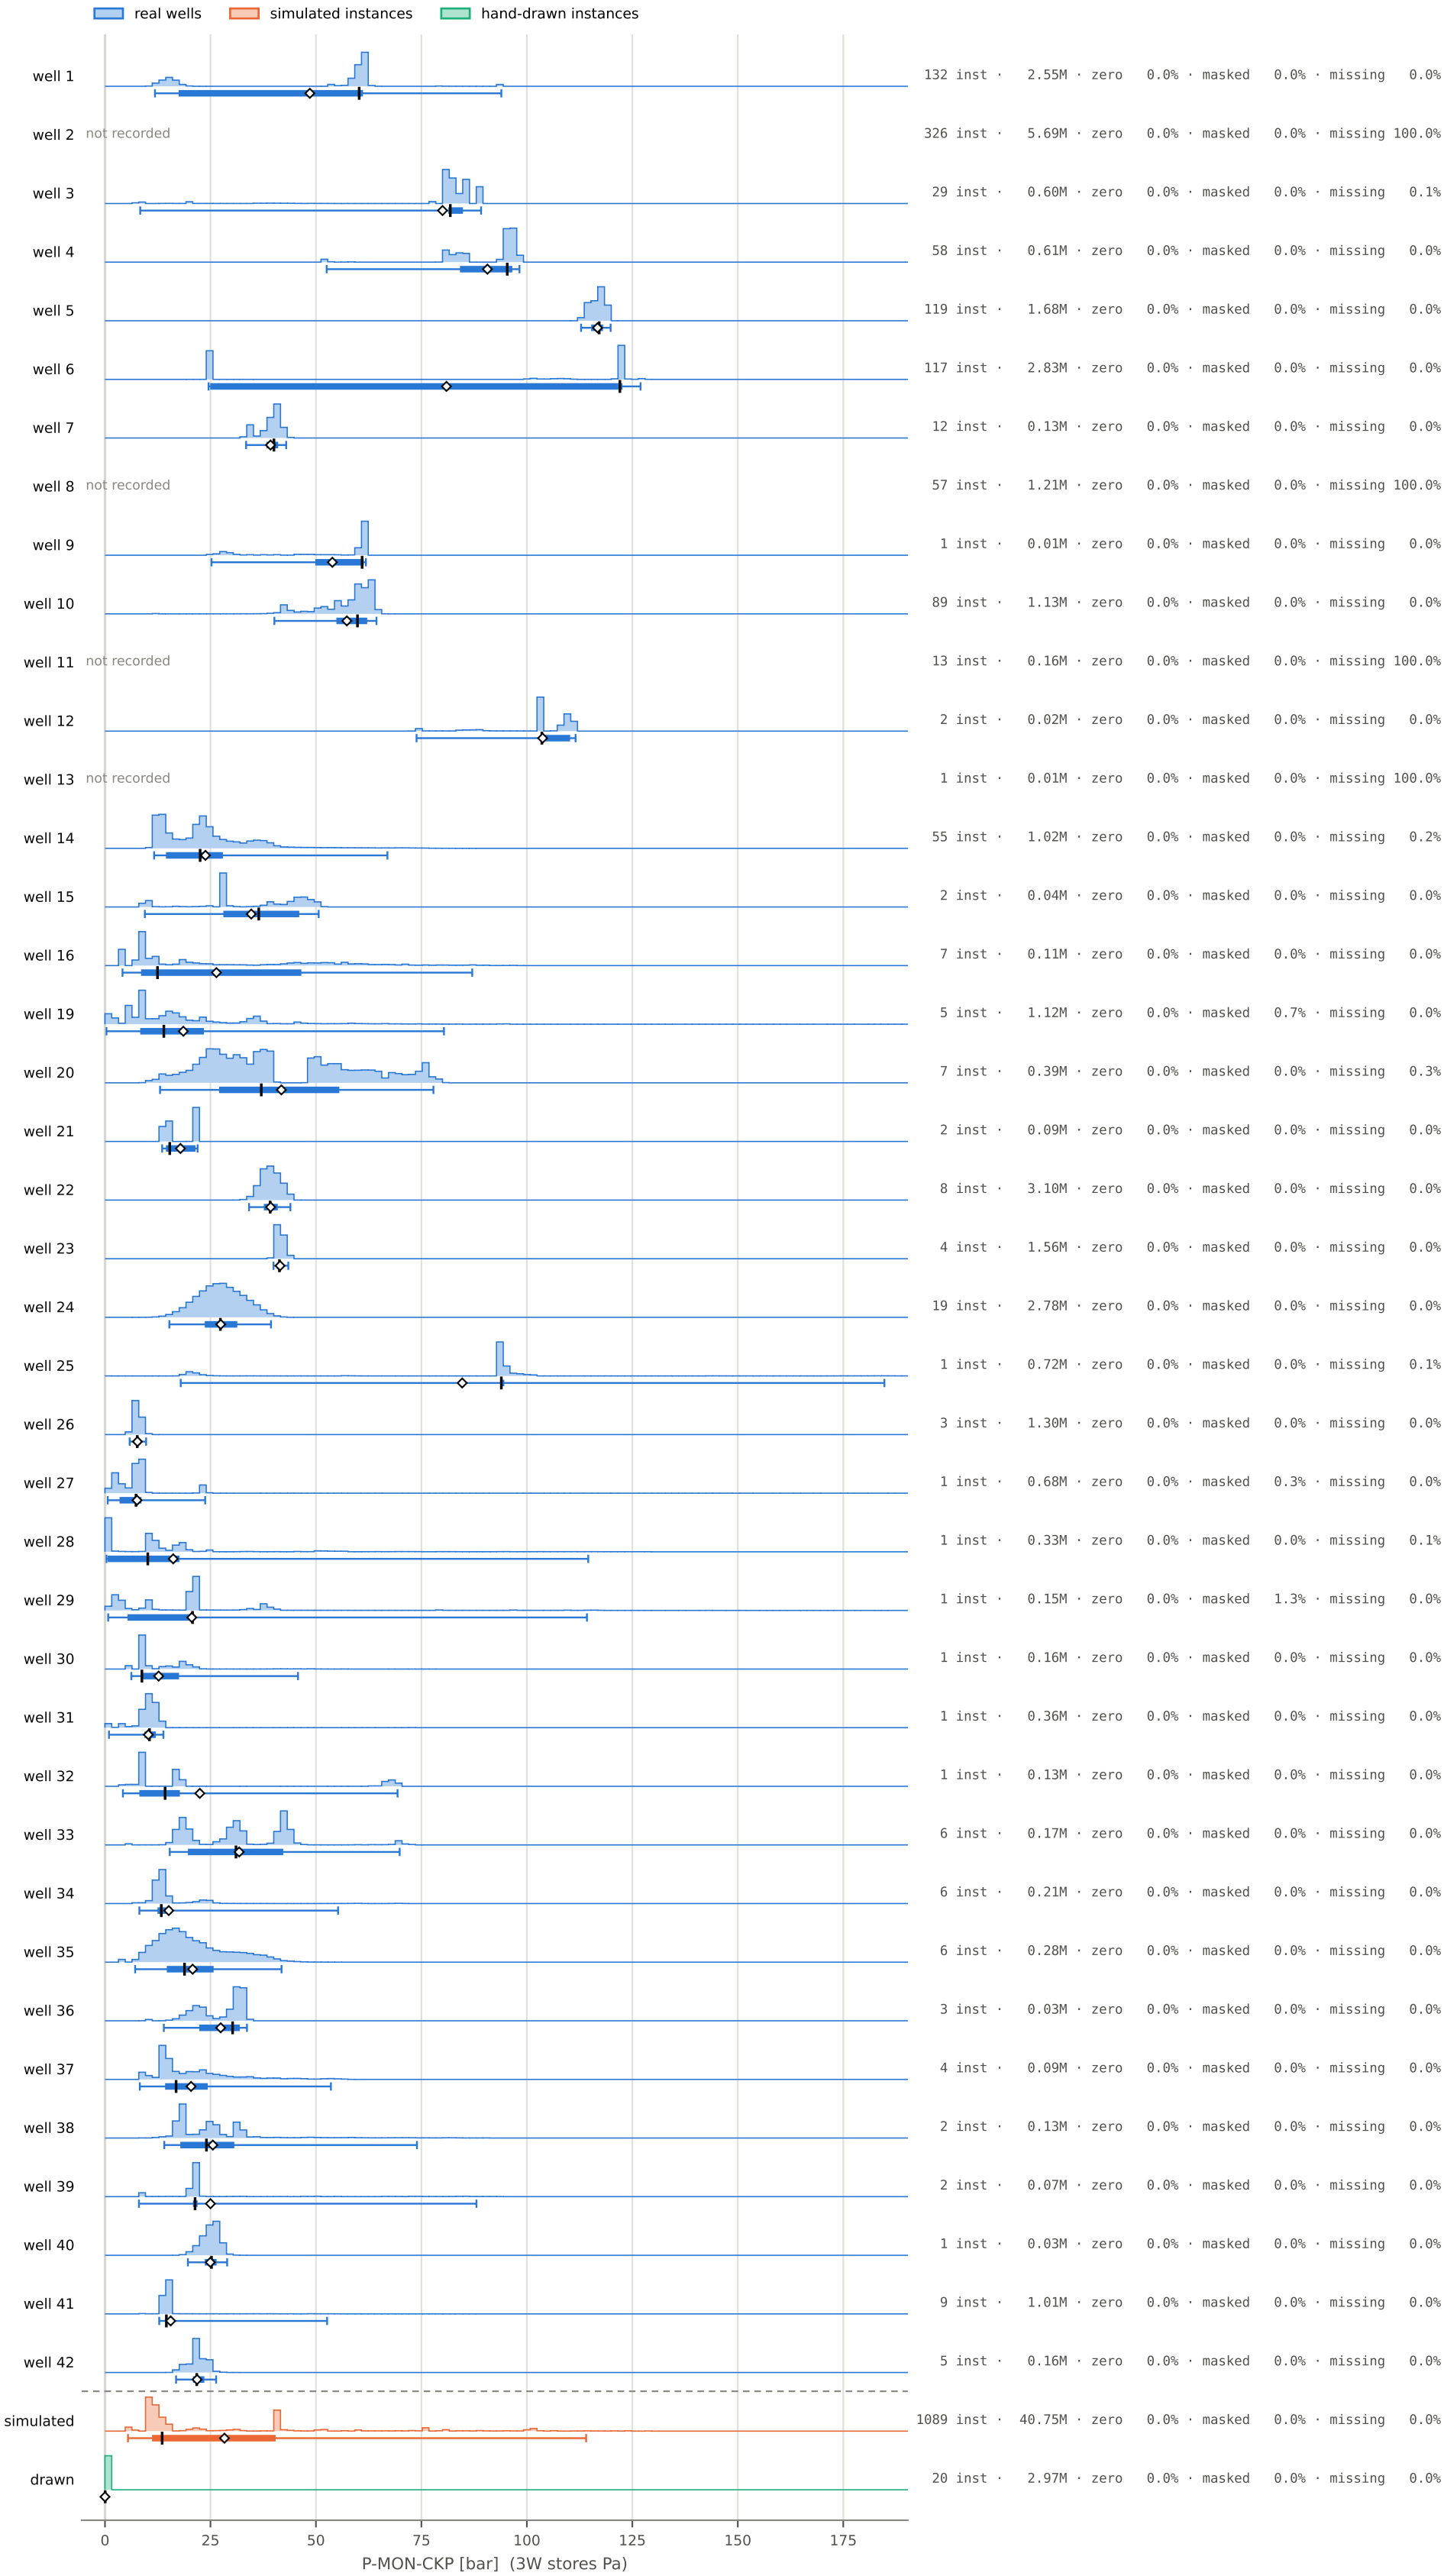

P-MON-CKGL — raw readings per well and source · min -0.94 bar · max 262.2 bar

histogram of the readings inside the plausible band [0, 1000] bar, each row scaled to its tallest bin · title: smallest and largest of all readings, inside the band or not
under each histogram: thick line 25th–75th percentile · thin line 1st–99th percentile · tick median · diamond mean
right margin: instances, readings, share exactly 0 (frozen sensor — kept by the default masking), share outside the band (what the default masking removes), share missing

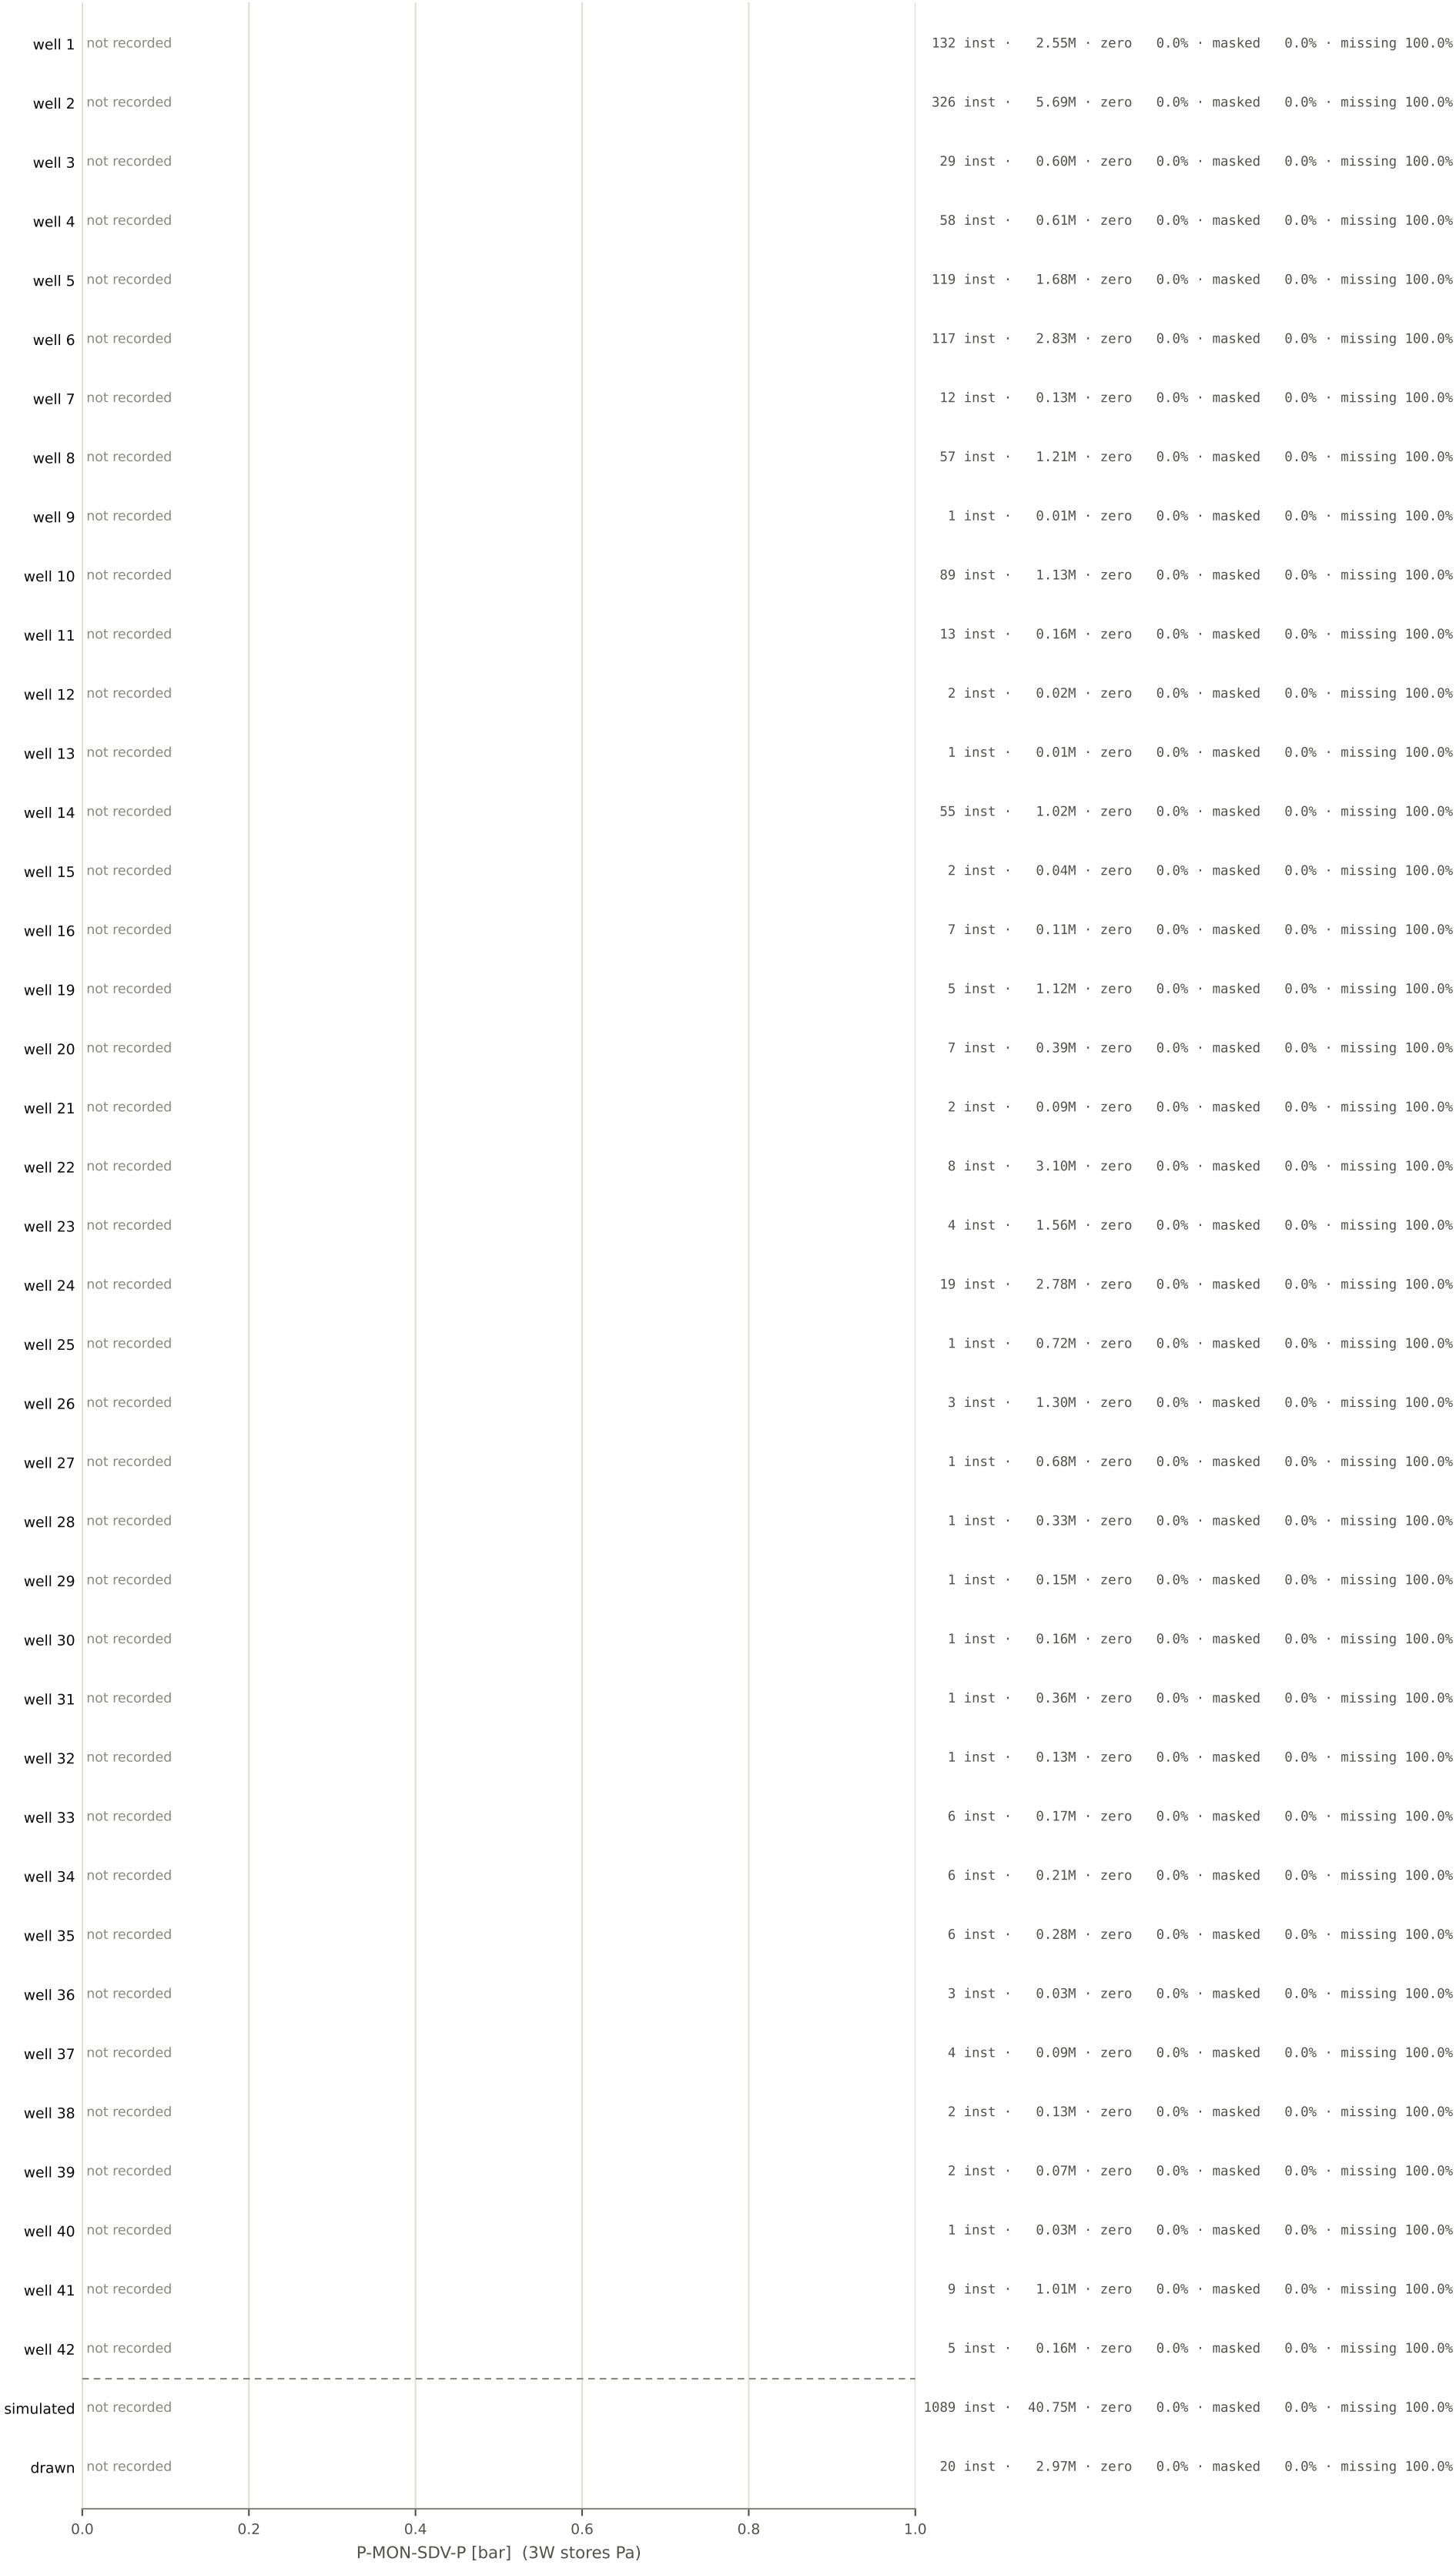

P-MON-CKP — raw readings per well and source · min -2.37 bar · max 247.5 bar

histogram of the readings inside the plausible band [0, 1000] bar, each row scaled to its tallest bin · title: smallest and largest of all readings, inside the band or not
under each histogram: thick line 25th–75th percentile · thin line 1st–99th percentile · tick median · diamond mean
right margin: instances, readings, share exactly 0 (frozen sensor — kept by the default masking), share outside the band (what the default masking removes), share missing

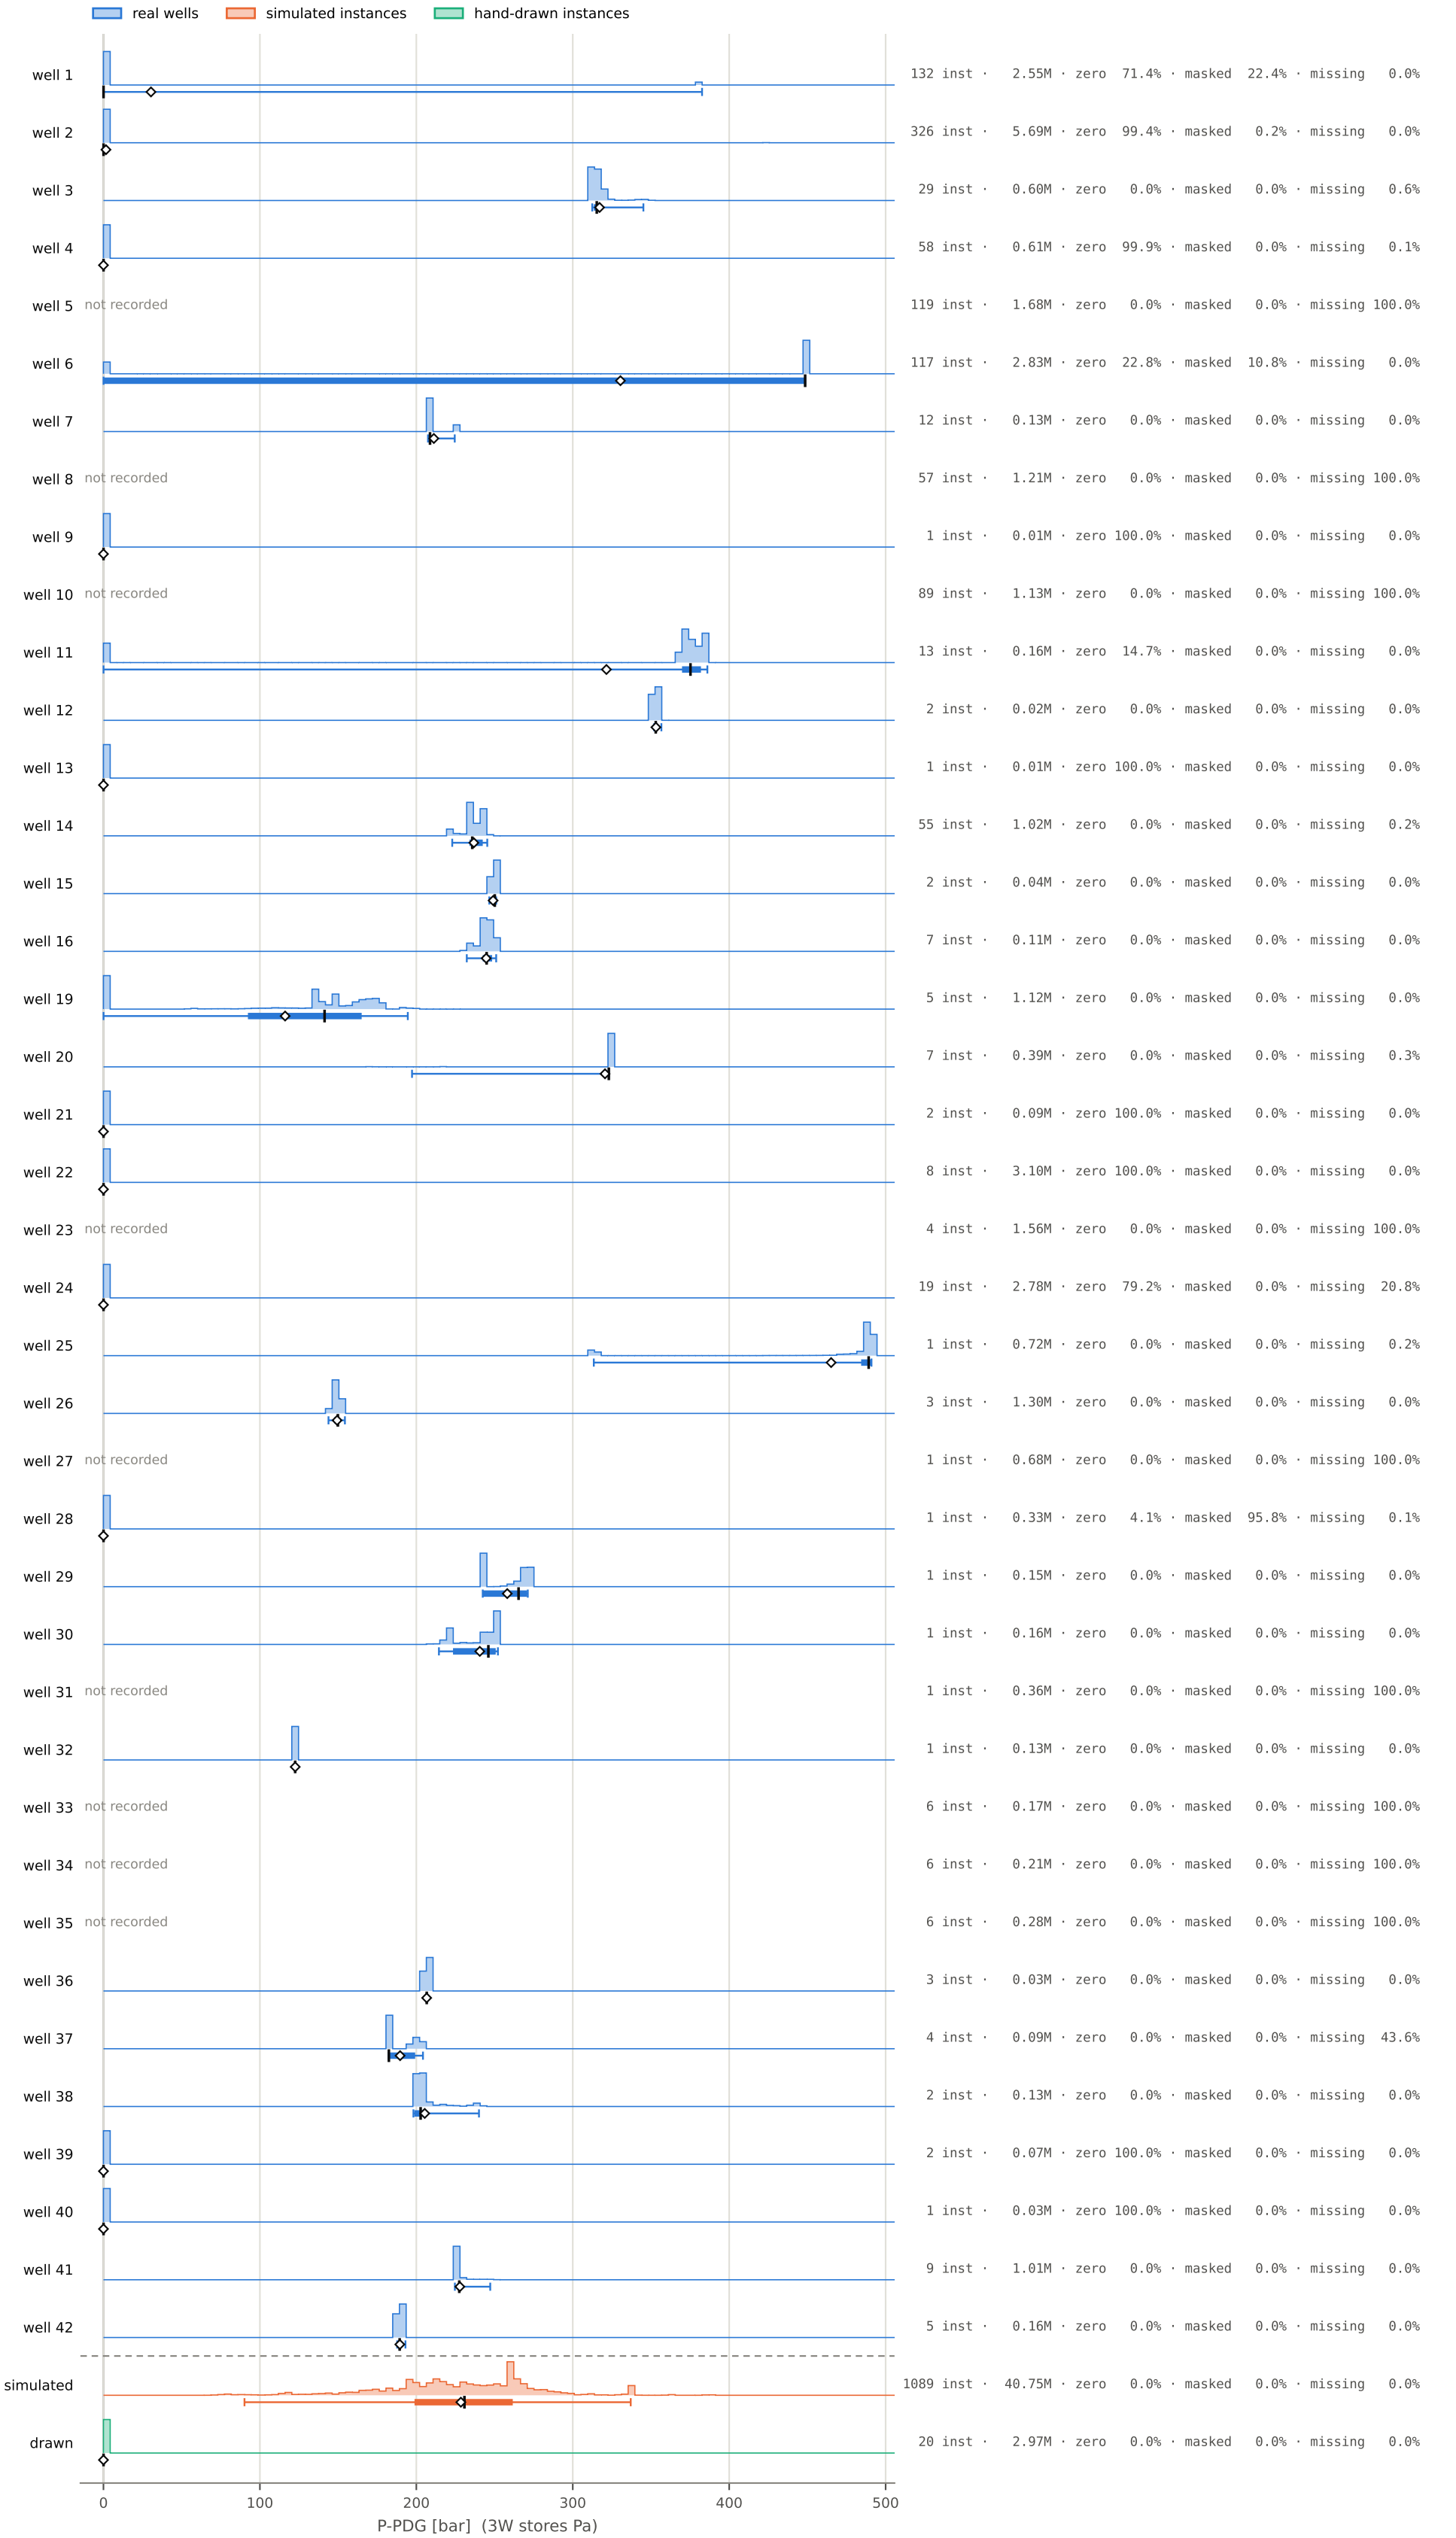

P-MON-SDV-P — raw readings per well and source · no reading

histogram of the readings inside the plausible band [0, 1000] bar, each row scaled to its tallest bin · title: smallest and largest of all readings, inside the band or not
under each histogram: thick line 25th–75th percentile · thin line 1st–99th percentile · tick median · diamond mean
right margin: instances, readings, share exactly 0 (frozen sensor — kept by the default masking), share outside the band (what the default masking removes), share missing

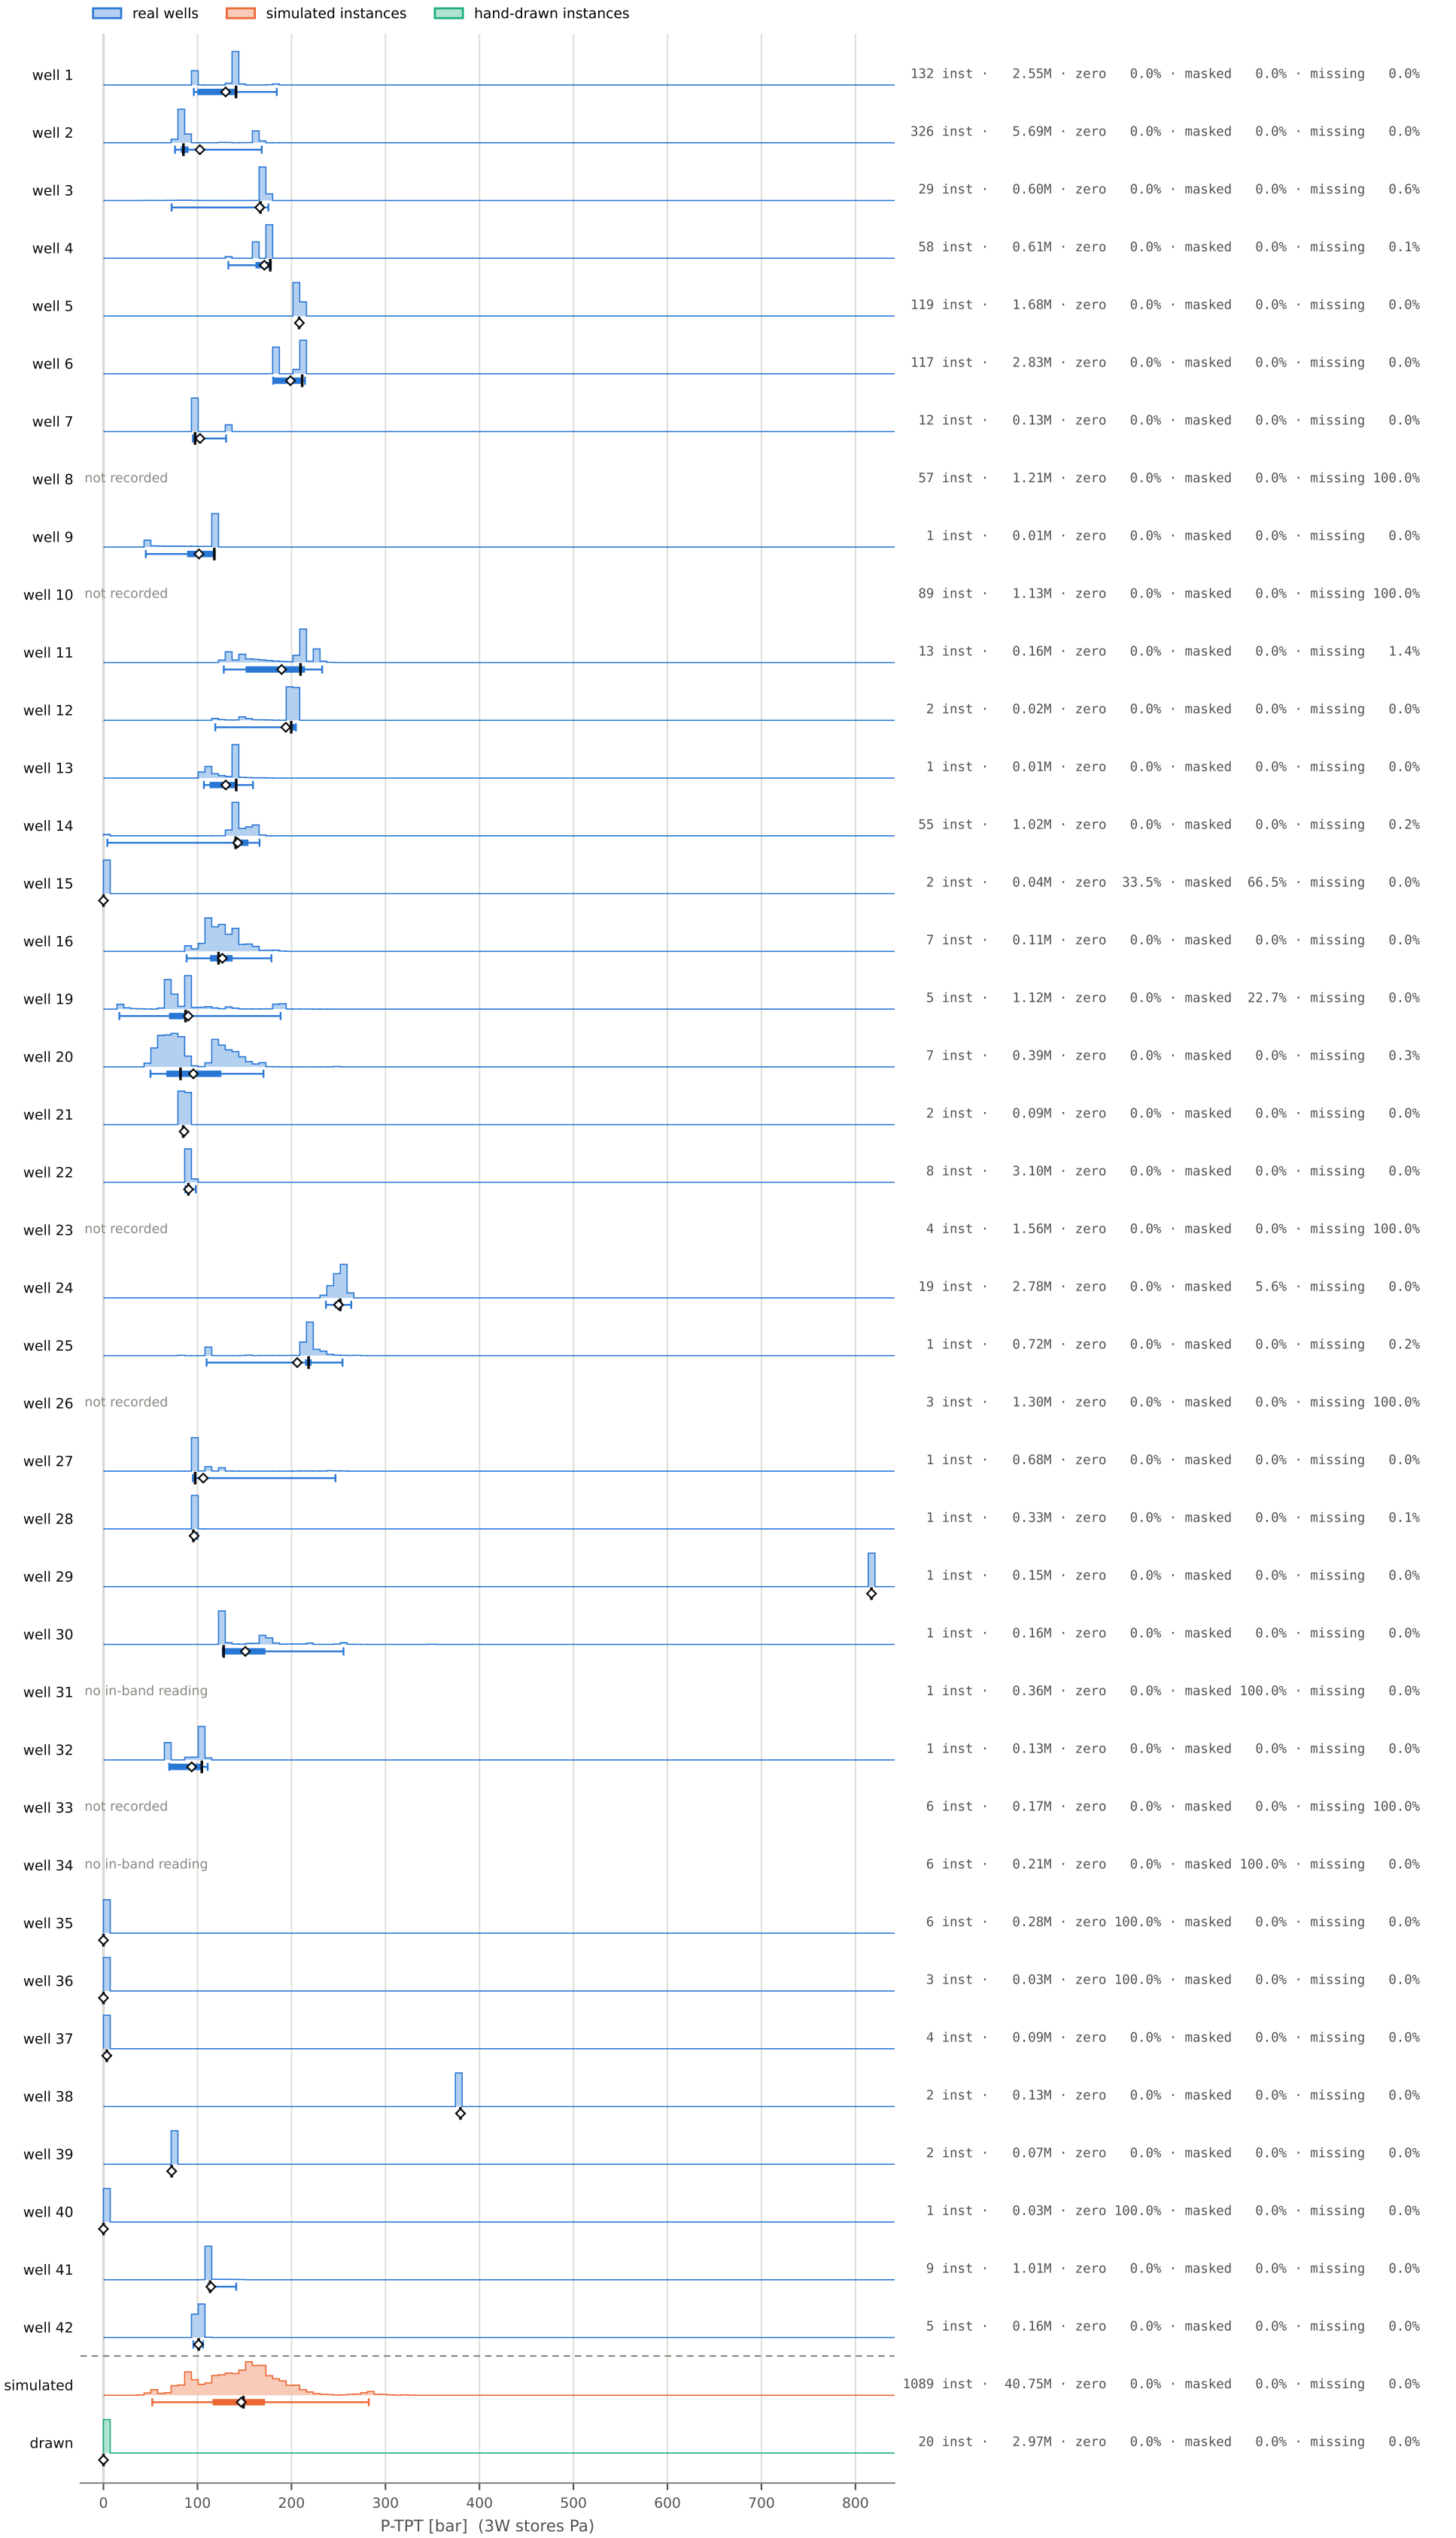

P-PDG — raw readings per well and source · min -1.18e+37 bar · max 490.9 bar

histogram of the readings inside the plausible band [0, 1000] bar, each row scaled to its tallest bin · title: smallest and largest of all readings, inside the band or not
under each histogram: thick line 25th–75th percentile · thin line 1st–99th percentile · tick median · diamond mean
right margin: instances, readings, share exactly 0 (frozen sensor — kept by the default masking), share outside the band (what the default masking removes), share missing

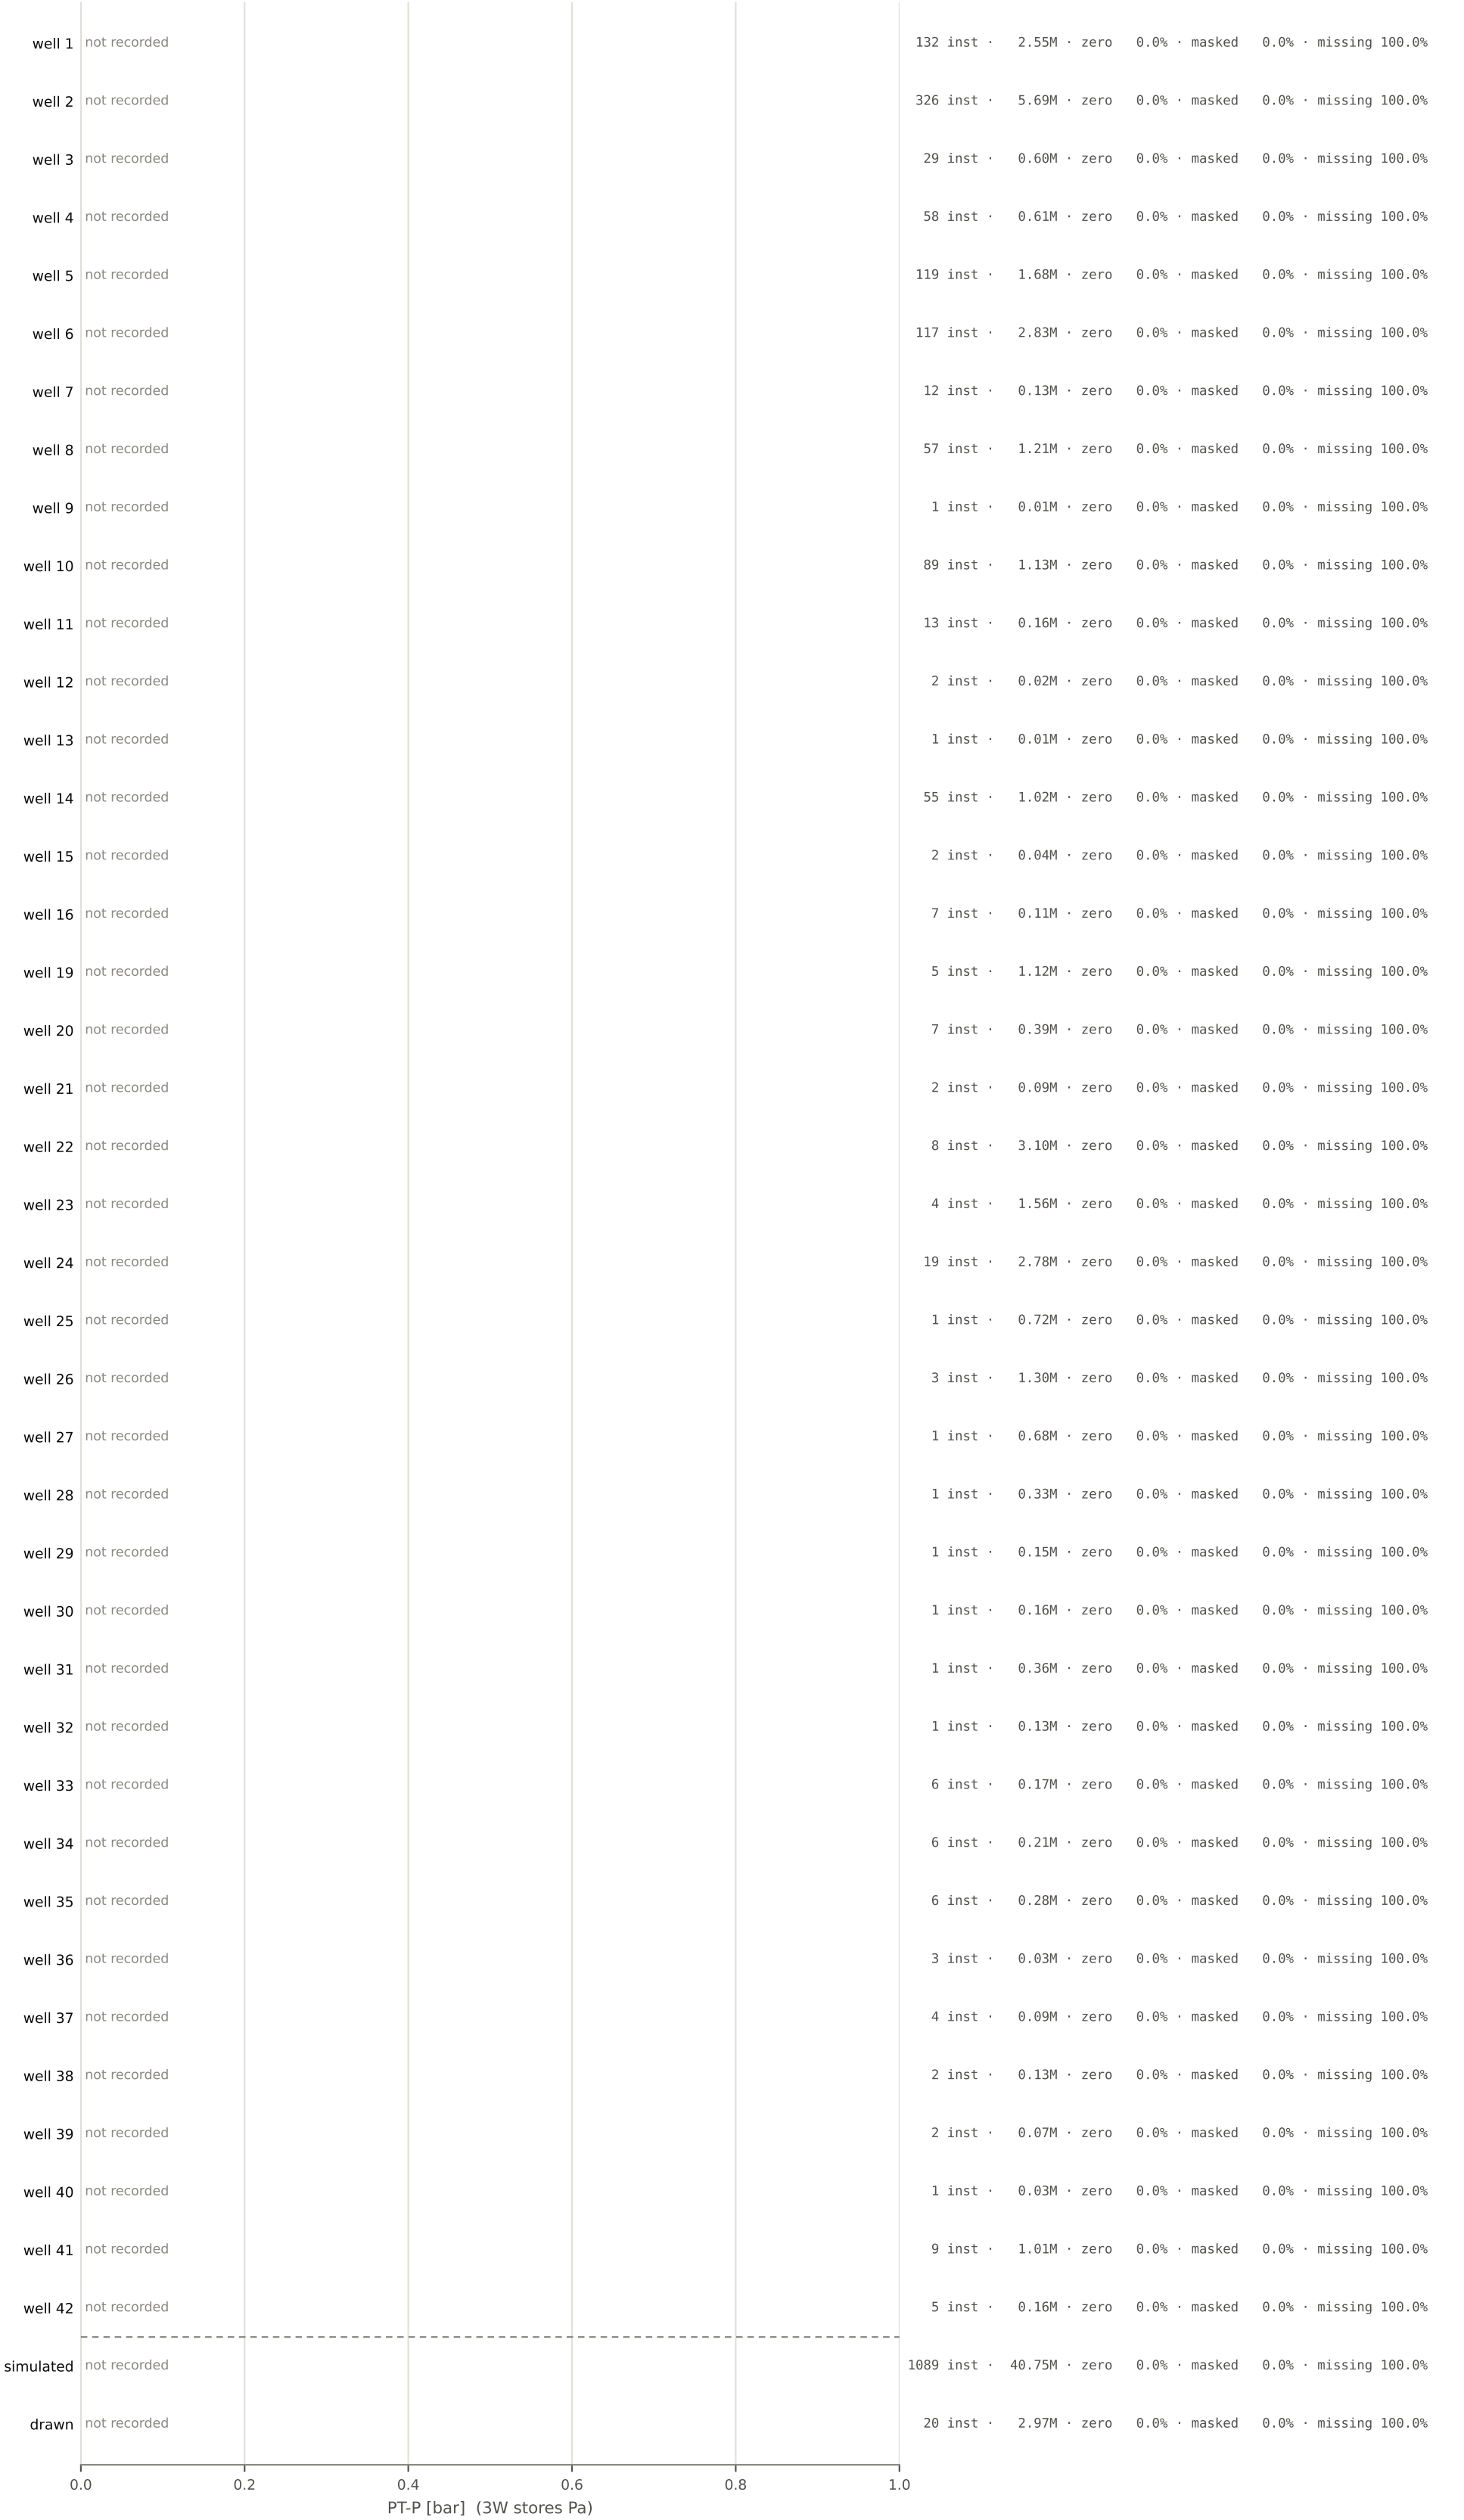

P-TPT — raw readings per well and source · min -171.3 bar · max 2.942e+04 bar

histogram of the readings inside the plausible band [0, 1000] bar, each row scaled to its tallest bin · title: smallest and largest of all readings, inside the band or not
under each histogram: thick line 25th–75th percentile · thin line 1st–99th percentile · tick median · diamond mean
right margin: instances, readings, share exactly 0 (frozen sensor — kept by the default masking), share outside the band (what the default masking removes), share missing

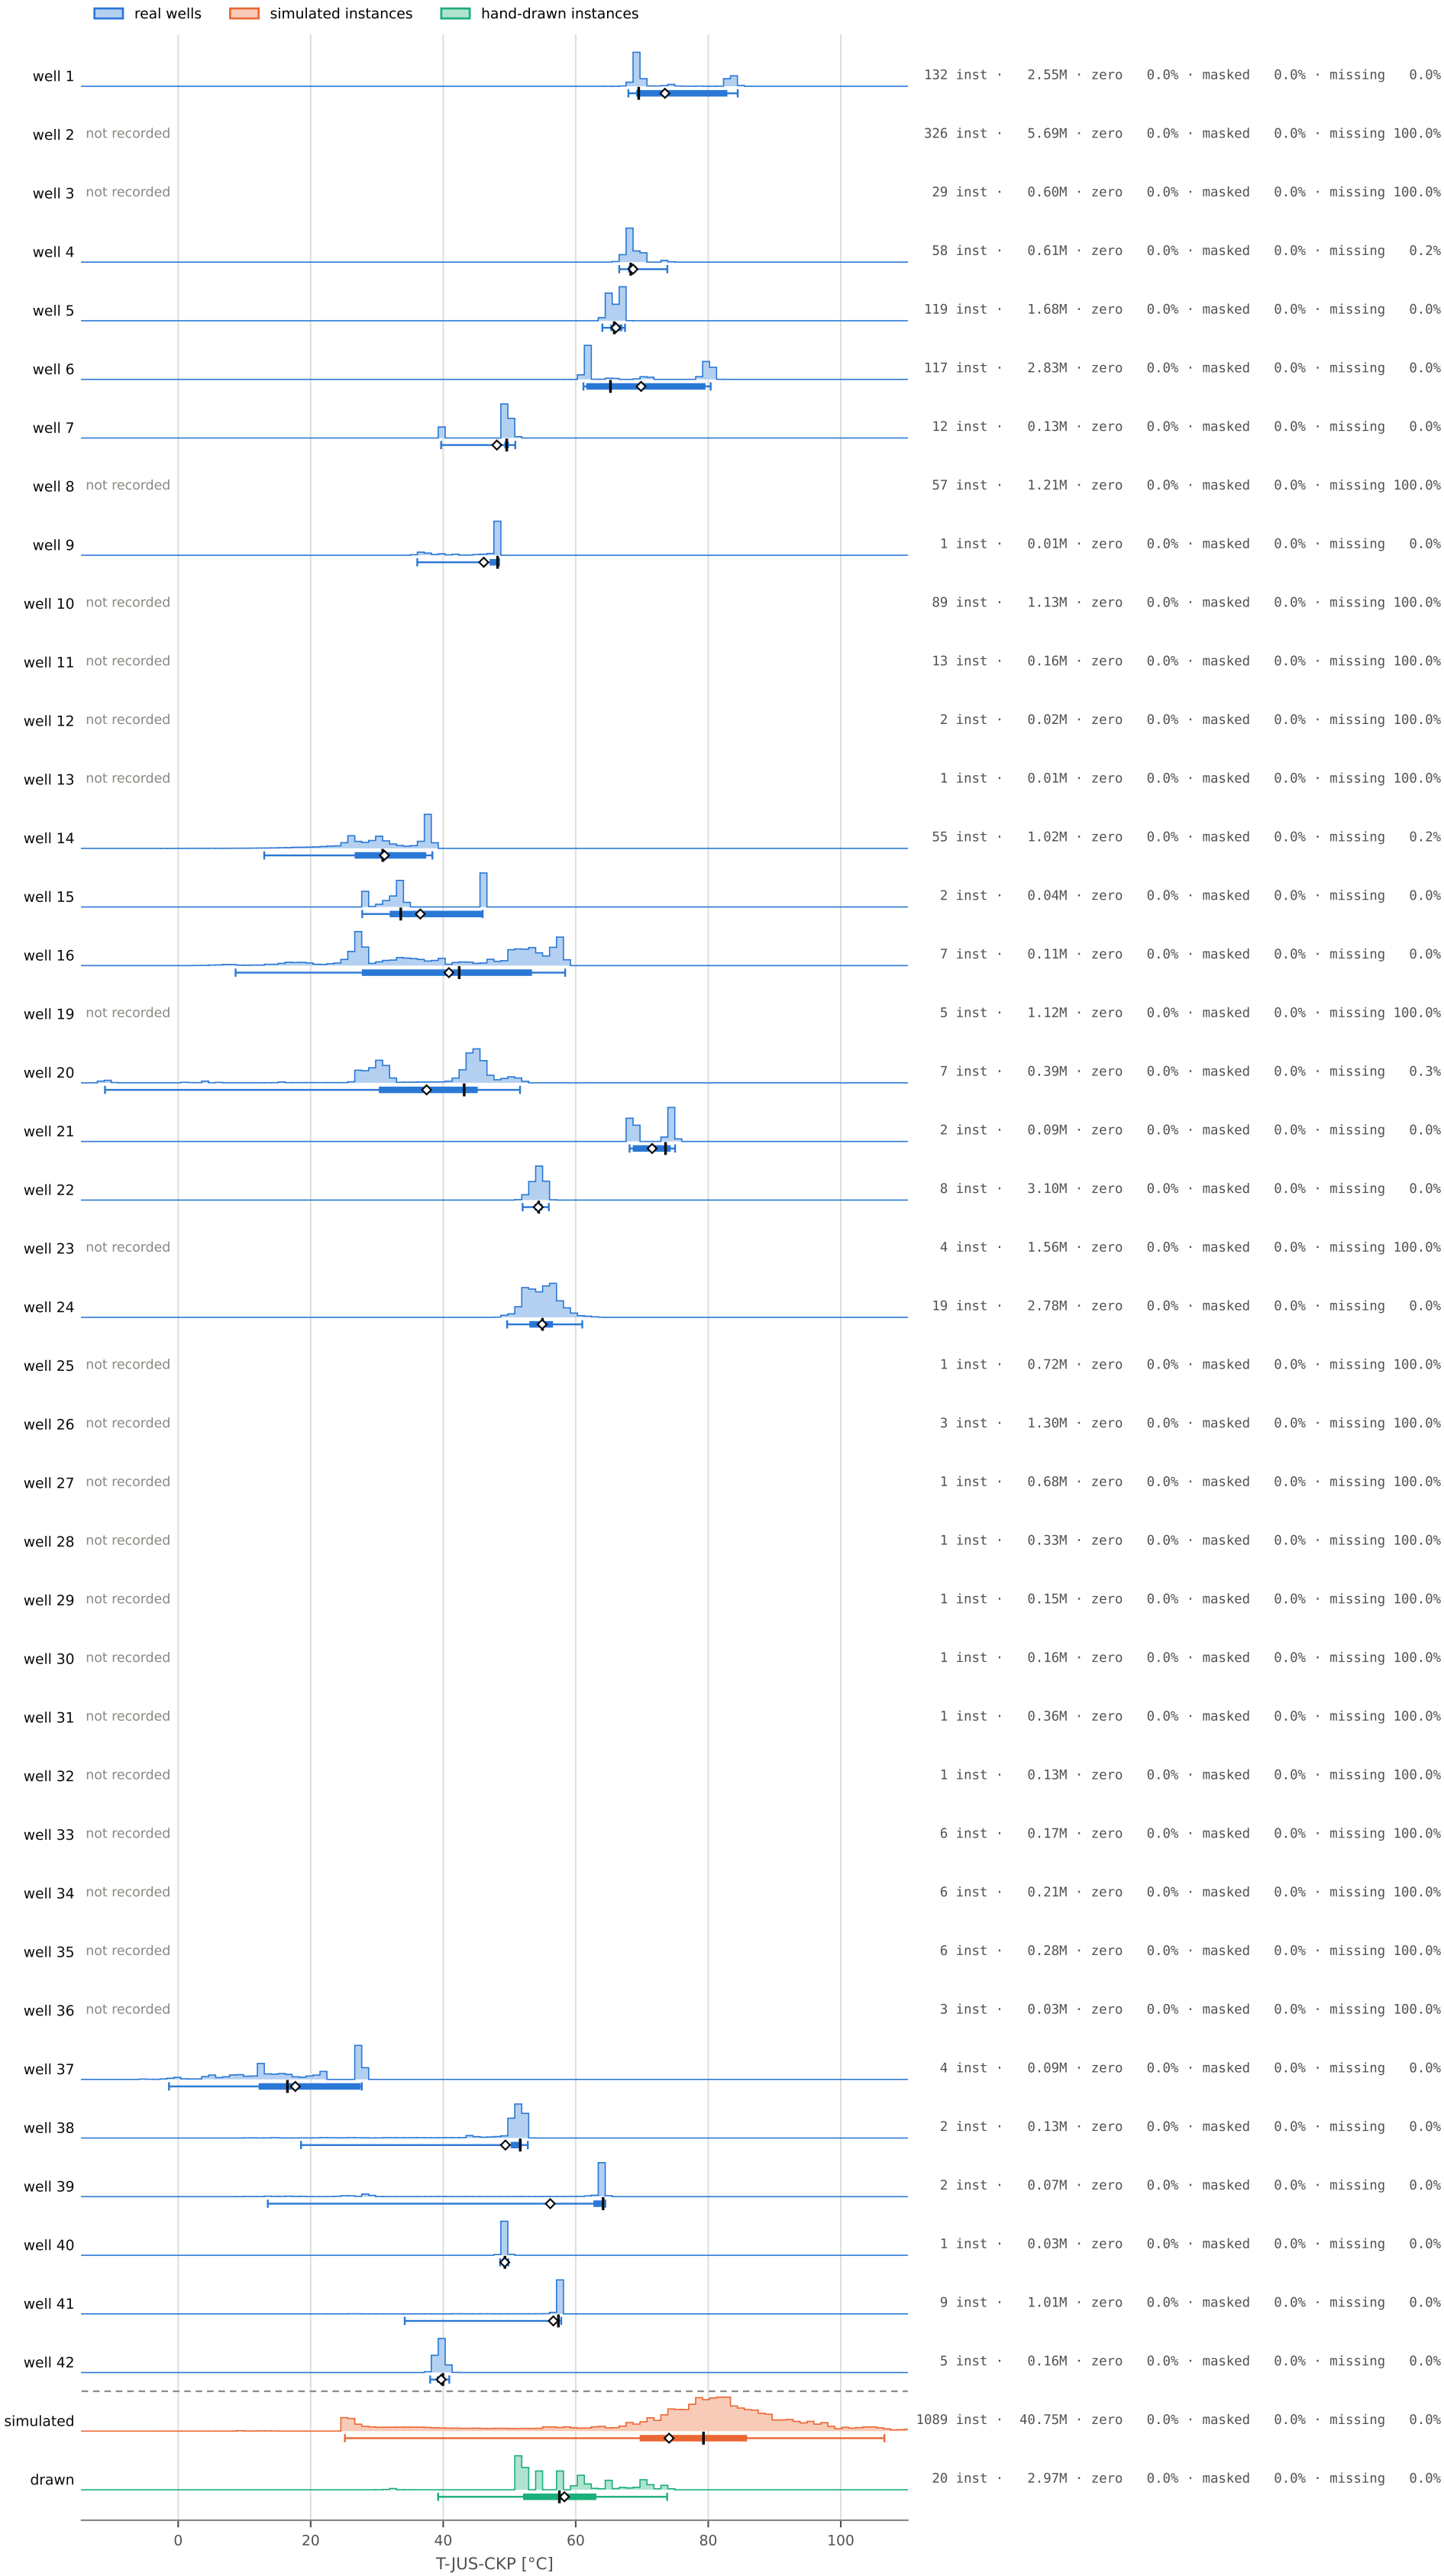

PT-P — raw readings per well and source · no reading

histogram of the readings inside the plausible band [0, 1000] bar, each row scaled to its tallest bin · title: smallest and largest of all readings, inside the band or not
under each histogram: thick line 25th–75th percentile · thin line 1st–99th percentile · tick median · diamond mean
right margin: instances, readings, share exactly 0 (frozen sensor — kept by the default masking), share outside the band (what the default masking removes), share missing

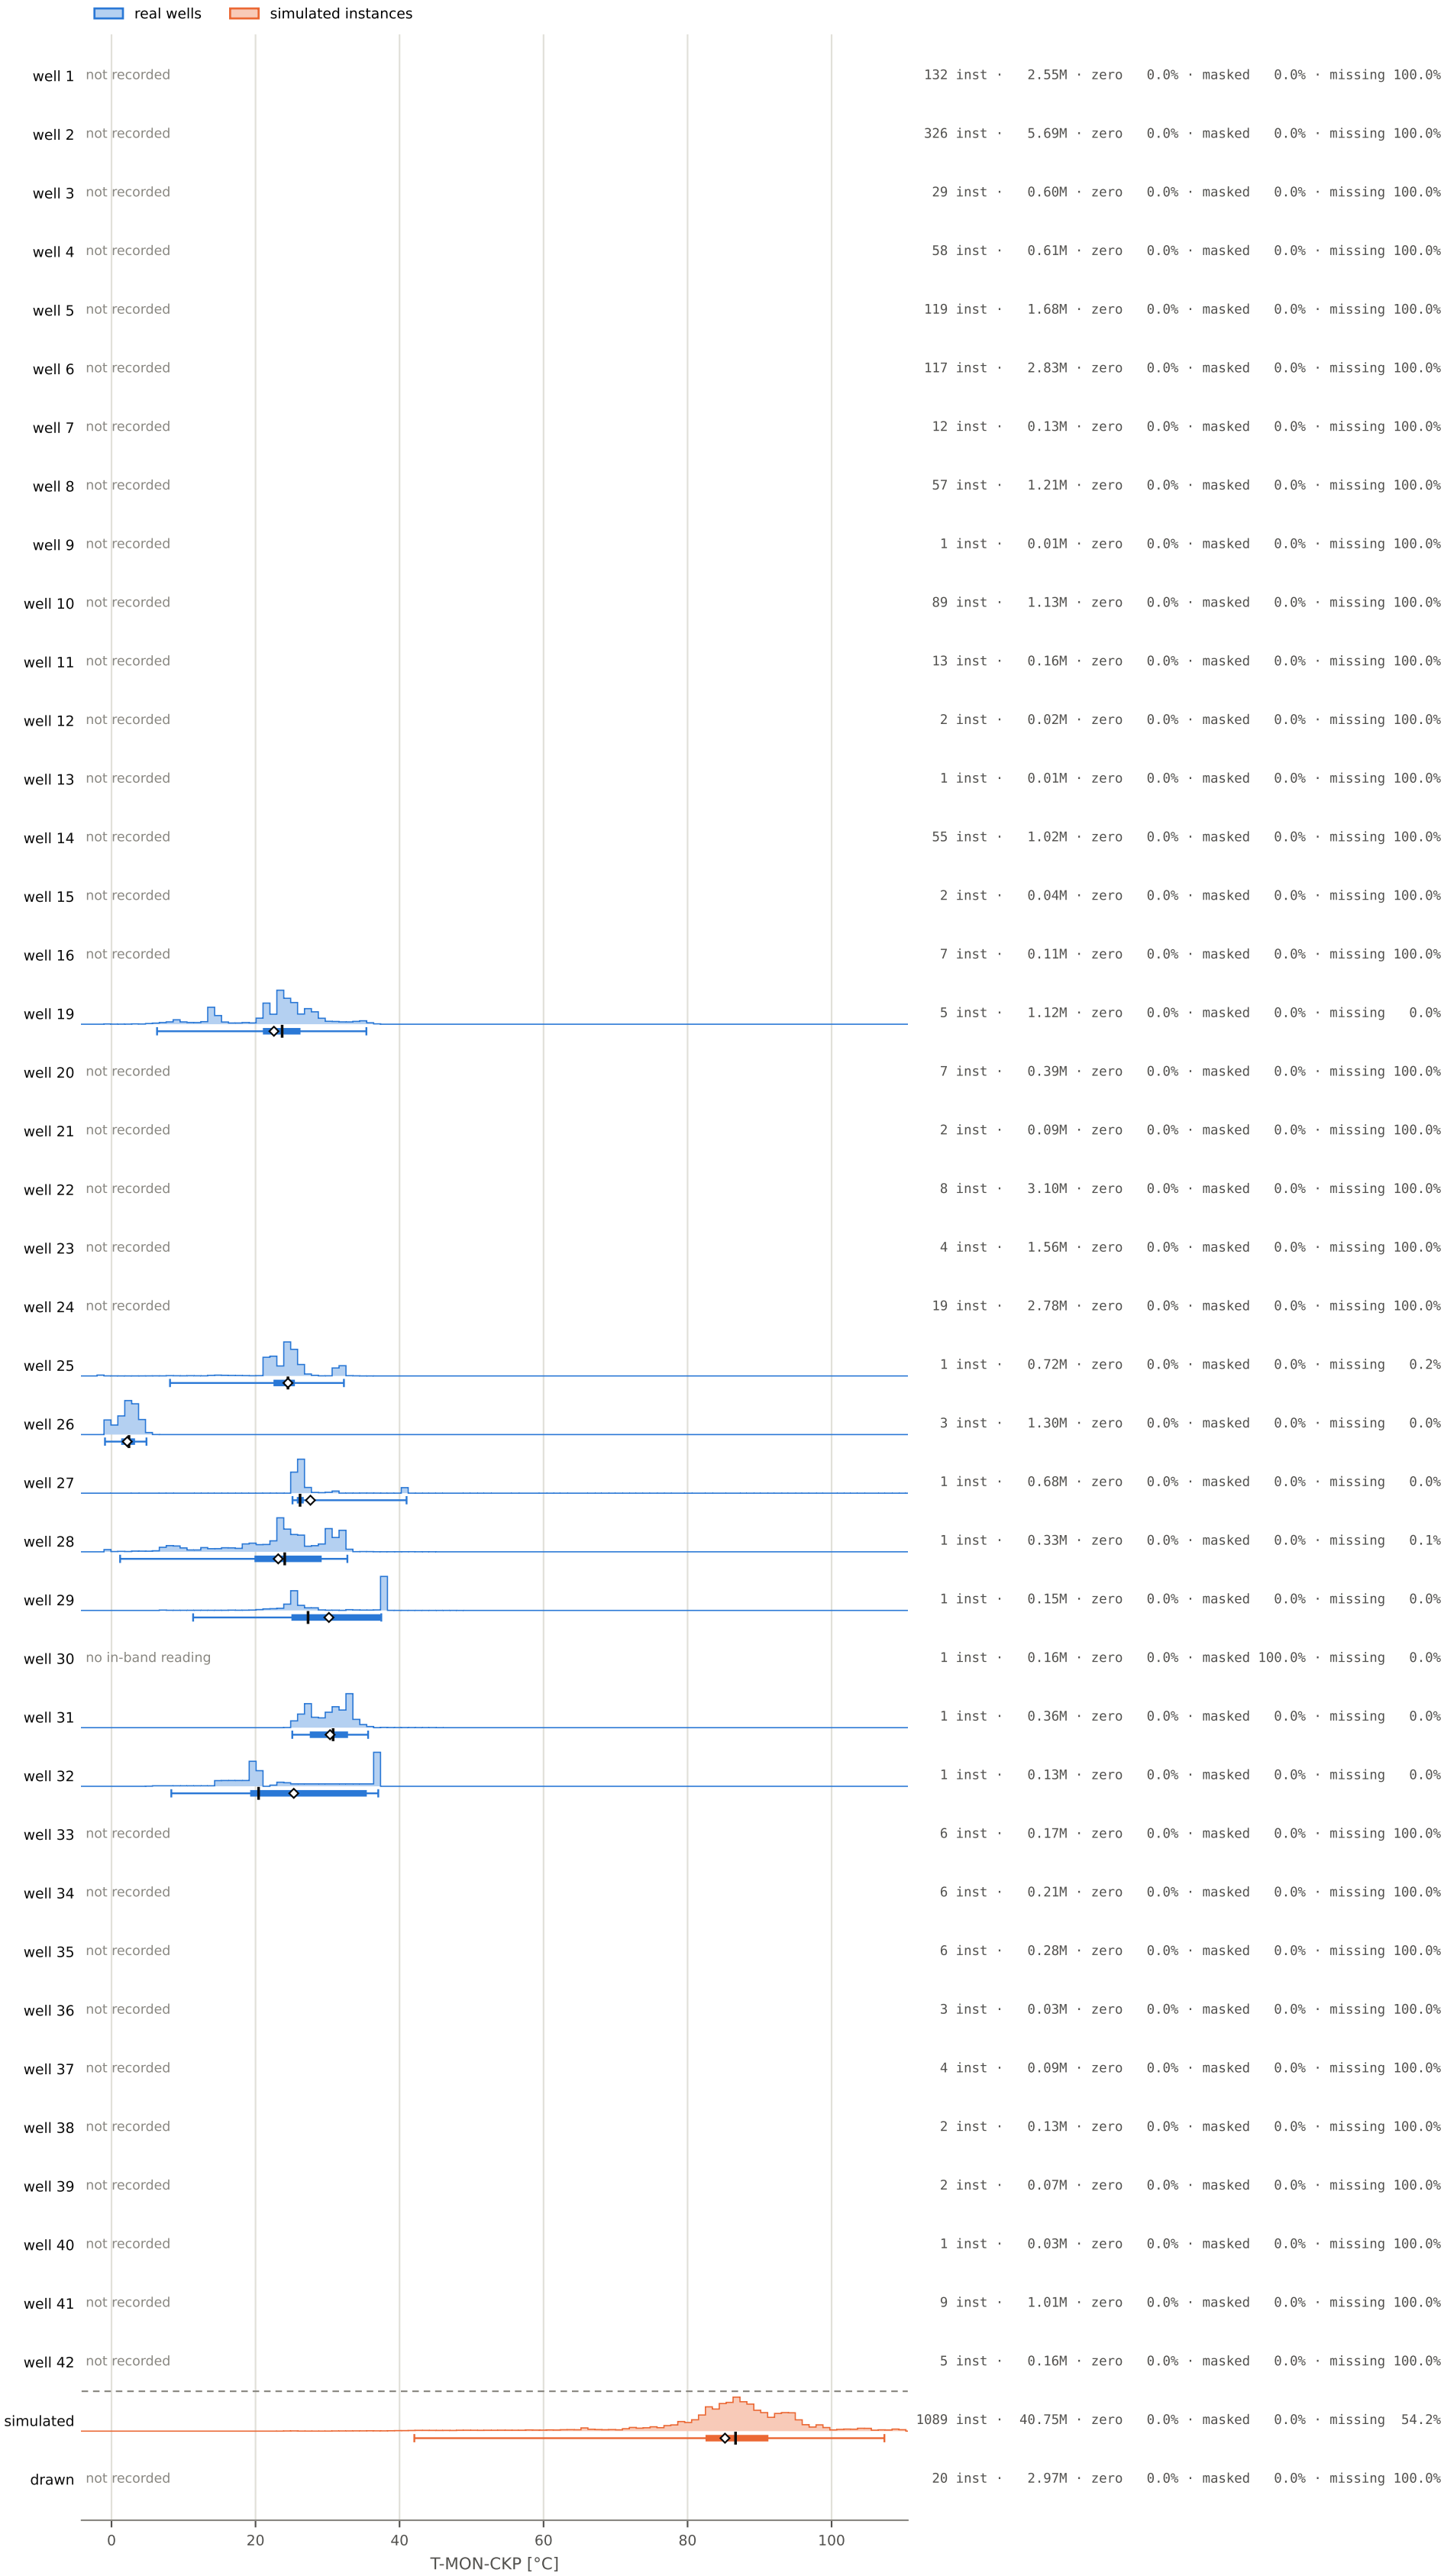

T-JUS-CKP — raw readings per well and source · min -11.39 °C · max 111.2 °C

histogram of the readings inside the plausible band [-50, 250] °C, each row scaled to its tallest bin · title: smallest and largest of all readings, inside the band or not
under each histogram: thick line 25th–75th percentile · thin line 1st–99th percentile · tick median · diamond mean
right margin: instances, readings, share exactly 0 (frozen sensor — kept by the default masking), share outside the band (what the default masking removes), share missing

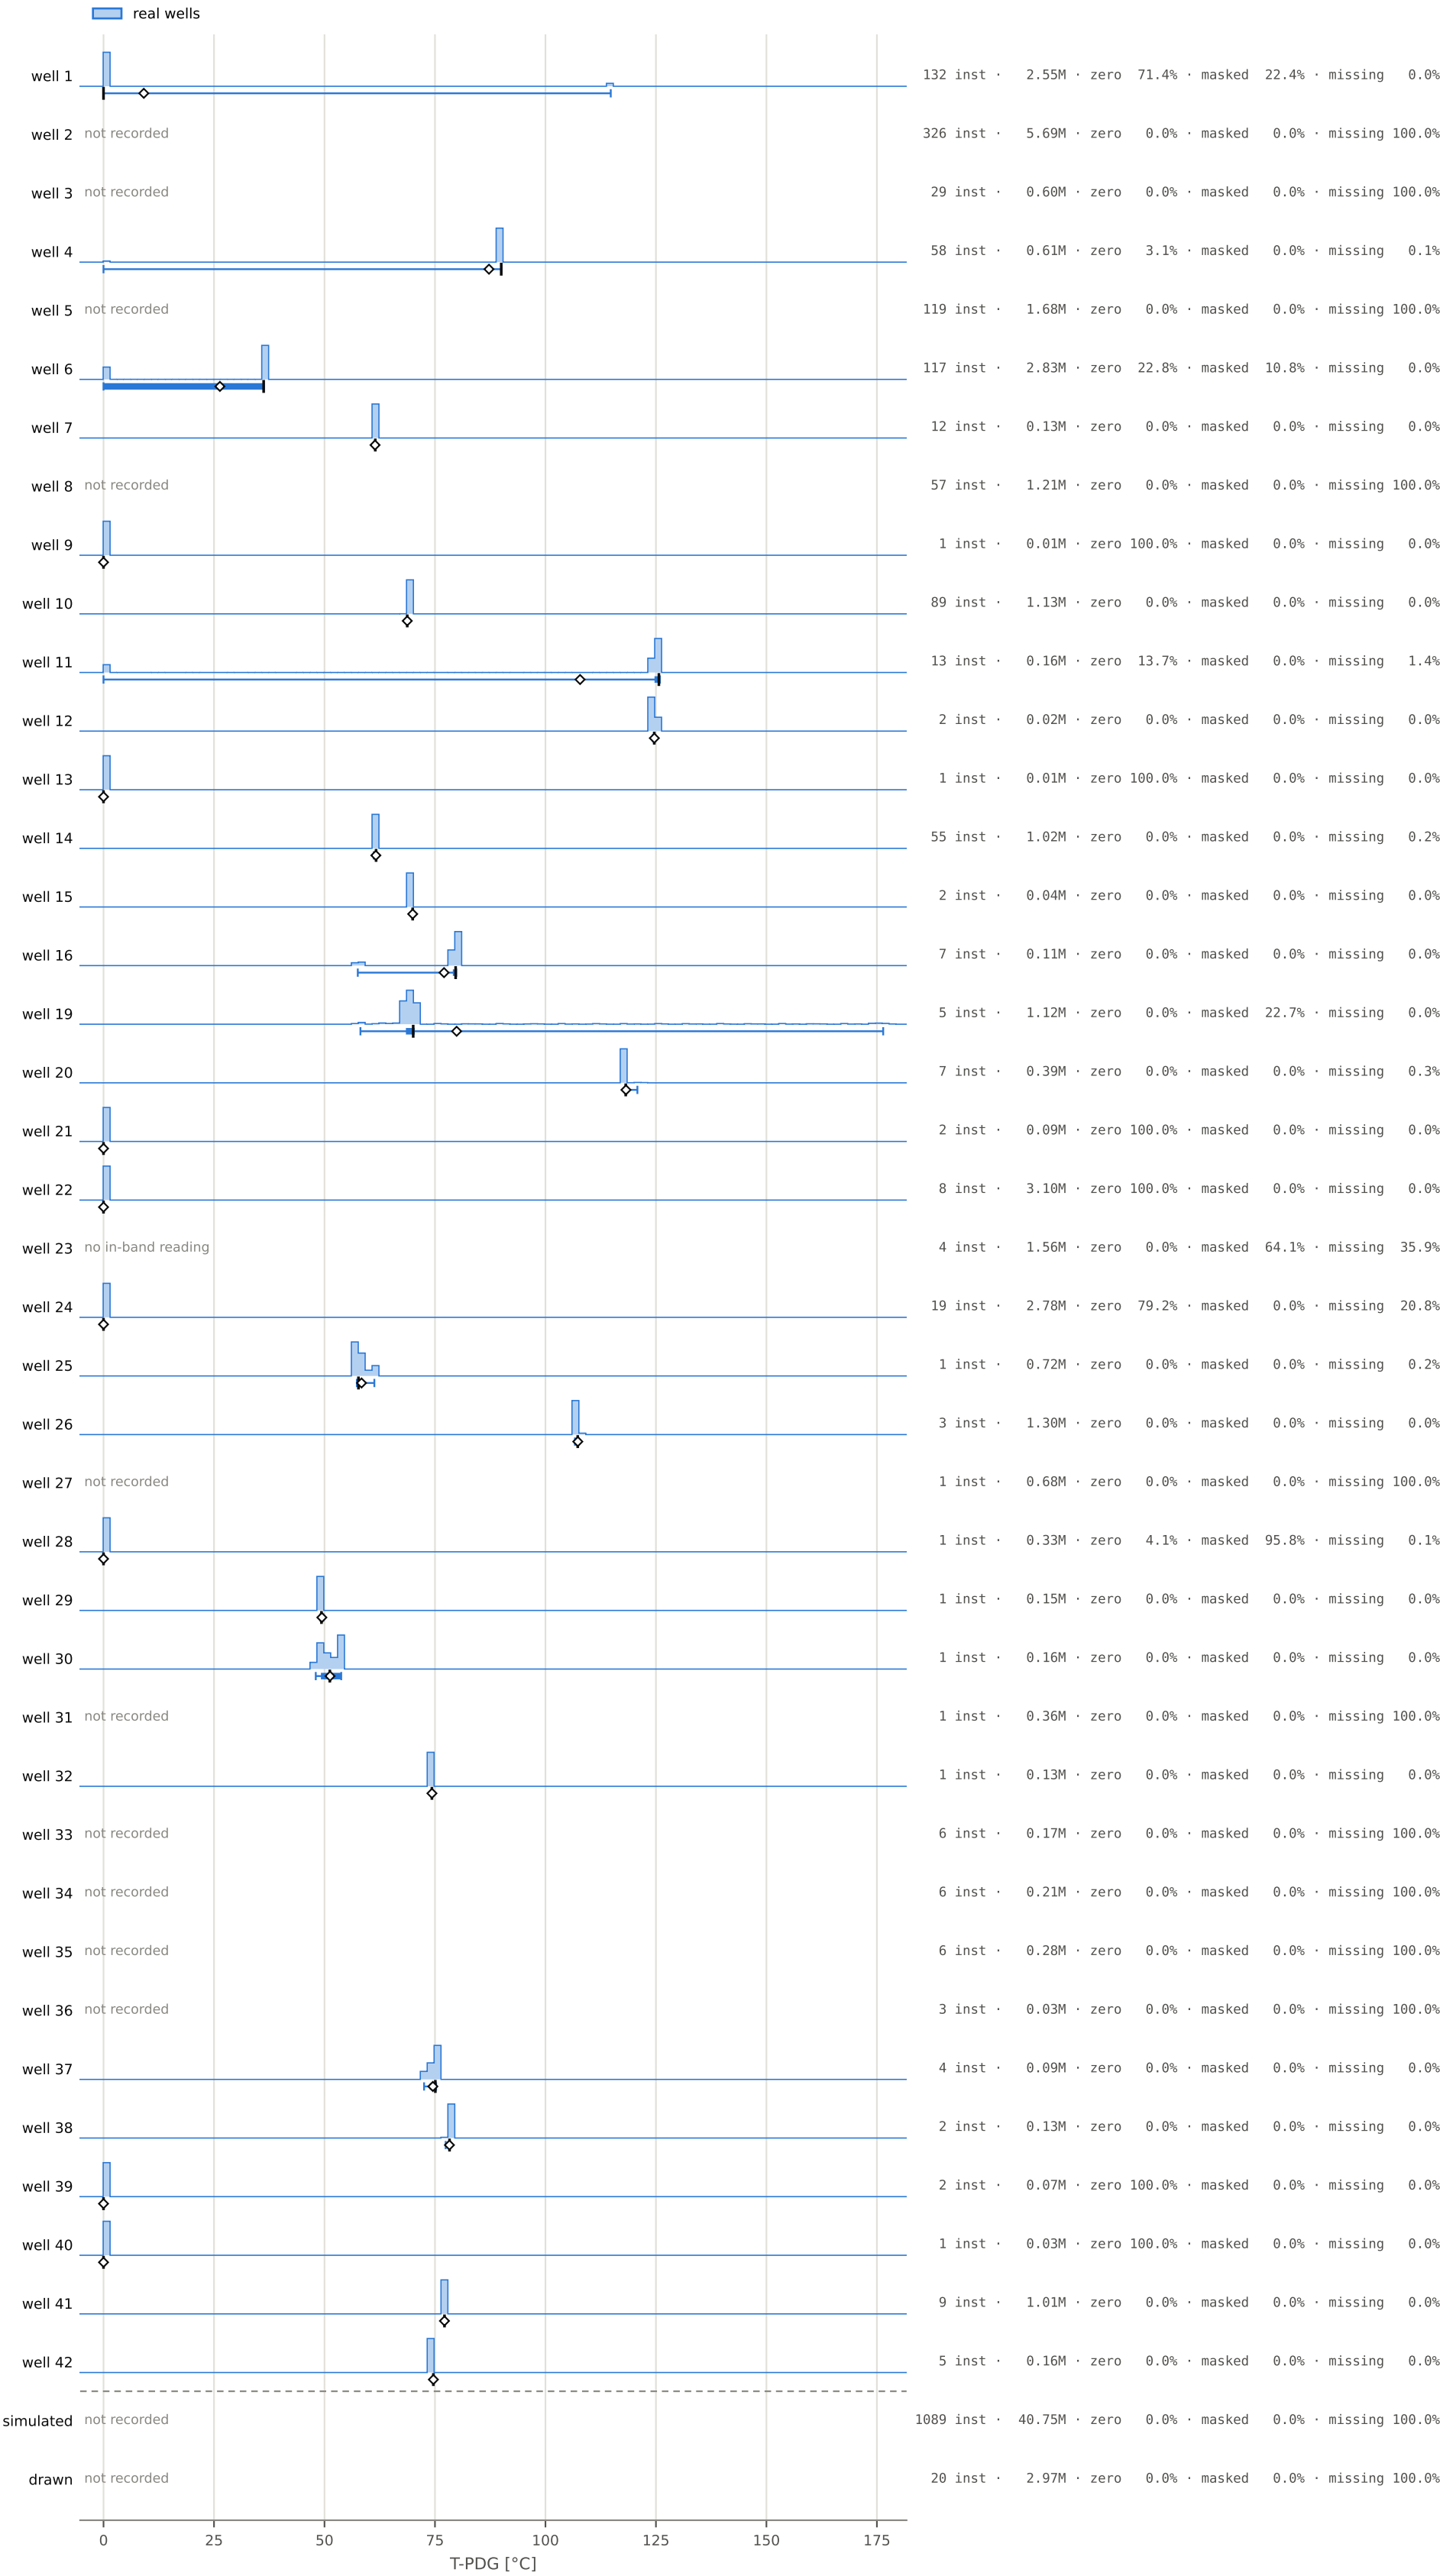

T-MON-CKP — raw readings per well and source · min -99.99 °C · max 111.2 °C

histogram of the readings inside the plausible band [-50, 250] °C, each row scaled to its tallest bin · title: smallest and largest of all readings, inside the band or not
under each histogram: thick line 25th–75th percentile · thin line 1st–99th percentile · tick median · diamond mean
right margin: instances, readings, share exactly 0 (frozen sensor — kept by the default masking), share outside the band (what the default masking removes), share missing

T-PDG — raw readings per well and source · min -1.712e+38 °C · max 3e+04 °C

histogram of the readings inside the plausible band [-50, 250] °C, each row scaled to its tallest bin · title: smallest and largest of all readings, inside the band or not
under each histogram: thick line 25th–75th percentile · thin line 1st–99th percentile · tick median · diamond mean
right margin: instances, readings, share exactly 0 (frozen sensor — kept by the default masking), share outside the band (what the default masking removes), share missing

T-TPT — raw readings per well and source · min -33.75 °C · max 127.7 °C

histogram of the readings inside the plausible band [-50, 250] °C, each row scaled to its tallest bin · title: smallest and largest of all readings, inside the band or not
under each histogram: thick line 25th–75th percentile · thin line 1st–99th percentile · tick median · diamond mean
right margin: instances, readings, share exactly 0 (frozen sensor — kept by the default masking), share outside the band (what the default masking removes), share missing
